

Sidney Sees All (Or At Least 73% Of It) - Friedman's 23 Predictions For 2013

/EINPresswire.com/ Best-selling author, mentalist, and mind power expert [Sidney Friedman](#) releases 23 [Predictions](#) For 2013 following another year of accuracy predicting 2012's NYC floods, Jennifer Aniston's engagement, unemployment rate, Oscars and more.

Chicago, IL -- Bedbugs in Boston? Monsoon in Montana? What will occur in 2013? One person, Sidney Friedman, may actually have the prescience to know.

Mentalist and corporate mind power expert Sidney Friedman releases his 23 [predictions for 2013](#) (SEE BELOW). Psychics come out of the woodwork this time of year, but Sidney Friedman has the credibility of a documented track record at 73% accuracy over 15 years stating predictions on shows like ABC-TV's The View, NBC-TV's Today Show, and ABC-TV's 20/20. This includes a near-perfect record of predicting OSCARS. And since he began including economic foresights four years ago, Friedman has been on-target predicting the exact trend of the stock market and unemployment figures.

Remarkably, this past year's results yielded an 84% accuracy.

Perhaps the most extraordinary Friedman prognostications of this past year were the following, as published in a New York Post article, January 2nd, 2012. Friedman stated, "Snow was BIG news last year in New York City. This year it's water!!!" It of course foretold the ravaging effects of one of the most unlikely weather incidents for that metropolis, Hurricane Sandy.

See the full 2012 results here: http://www.sidneyfriedman.com/predictions_006.htm

But as Sidney says, "Most of the future is unpredictable. That is as it should be. For the most part, we make the future. But from our subconscious mind, we get impressions and veiled images. I attempt to interpret these images, often successfully, sometimes not, but always for fun and intrigue."

Here is the complete list of Sidney Friedman's 23 Predictions For 2013:
<http://www.onlineprnews.com/news/302293-1356213804-sidney-sees-all-or-at-least-73-of-it-friedmans-23-predictions-for-2013.html/>

Just a few of Friedman's 23 predictions for 2013 are as follows:

A) Contrary to current tension, and against all reasoned historical probability, there is an unusual, unexpected calm with a period of peaceful understanding in the Middle East by summer of this year between either Israel and the Palestinians, or Israel and Iran, achieved not by political leaders, but by common citizens.

B) In a quasi shake-up, Jimmy Fallon is named host of NBC-TV's "Tonight Show," replacing Jay Leno.

C) A massive amount of dead fish are seen floating in an east coast bay.

D) Though this movie is not getting the pub that others are garnering, I foresee OSCAR gold bestowed upon Jennifer Lawrence (Silver Linings Playbook) for Best Actress. NOTE: AS IS THE CASE EVERY YEAR, I DO NOT SEE ANY OF THE MOVIES PRIOR TO THESE PREDICTIONS.

E) With stiff competition from potential nominees Helen Hunt, Sally Field and others, I see Anne Hathaway (Les Miserables) triumphantly holding the Oscar for Best Supporting Actress.

F) Even though stalwarts like Robert DeNiro and Leonardo DiCaprio will be nominated in this category, my vision is Tommy Lee Jones (Lincoln) winning the Best Supporting Actor Oscar.

G) In some of the more odd and highly unpredictable categories, Zero Dark Thirty wins the OSCAR for best original screenplay, and Life of Pi wins for cinematography.

H) I foresee two other OSCAR event images: Something occurs with shaking. And while each year, a huge variety of styles and fabrics are seen on women who stroll the OSCAR red carpet, the men wear the basic black tuxedo. Except for this year! For 2013, I see strikingly metallic tuxedos for one or several men.

I) A new, odd, unexpected source of fuel for cars, trucks and/or machinery is announced.

J) A huge discovery is made, or a significant event occurs, regarding solar flares.

K) The number 9, the number 2, and a heart-shaped image in the sky in some way will be part of this year's events.

L) A plague-like pandemic affects populations in Europe and to some extent in the USA. Much of it ironically occurs in hospitals.

M) A recurring vision of mine, too striking to ignore, is that the eating of bugs gains a following.

N) After a brief parting, Kim Kardashian and Kanye West will announce they are tying the Knot. And btw: Kim's divorce from Kris Humphries will be finalized by summer. That's a lot of K's. (Speaking of which, let's hope none of this is done in a Kangaroo Court.)

The full list of predictions for 2013, including foresights about the U.S. economy and technology, are here:

Regarding the techniques Friedman uses to hone in on what the subconscious tells us about the future, Friedman is the author of a national best-selling book, 'Your Mind Knows More Than You Do,' which reached #8 on Amazon.

Most important, throughout the year, to help others predict their own successful future, Sidney Friedman makes personal appearances at hundreds of corporations, associations, and charities, teaching and entertaining with his Mind Power Training and Mind Power Show for the likes of Morgan Stanley Smith Barney, John Hancock, Campbell's, McDonald's, and hundreds more.
