

# Breast Enhancement Night: Tampa Surgeon to Host Fun, Informative Event

ST. PETERSBURG, FL, USA, January 17, 2014

/EINPresswire.com/ -- With warm weather approaching, there's no better time to learn about breast enhancement in Tampa from local plastic surgeon Dr. Jeremy Benedetti than at Breast Enhancement Night, a fun and informative special event with wine and hors d'oeuvres.

St. Petersburg, Florida — At what's sure to be a fun and educational event hosted by Dr. Jeremy Benedetti of Benedetti Cosmetic Surgery, women interested in [breast enhancement near Tampa Bay](#) have a unique chance to discuss the latest advances in cosmetic breast surgery, along with the opportunity to get a special mini-consultation. Dr. Benedetti and his staff host an annual "breast event," and this year's, on Feb. 20th at 6 p.m., is designed for women who want to learn about breast lifts, breast reduction, or breast augmentation.

"This area is a wonderful region to work, and our annual breast event is an enjoyable way for the Tampa Bay community to connect with [my plastic surgery practice](#)," Dr. Benedetti says. "It also provides women who are interested in enhancing their breasts with straightforward information and engages them in a conversation about their choices. I'm excited that a representative from MENTOR® Breast Implants will again be available to talk about the many options available."

Breast enhancement specialist Dr. Jeremy Benedetti invites Tampa Bay women to a fun and educational night to learn about cosmetic breast surgery options.

The night will include a short lecture by Dr. Benedetti, a board-certified plastic surgeon and a cosmetic breast surgery specialist. Following the presentation about breast implants by the Tampa-area MENTOR representative, Dr. Benedetti will meet with women who would like private mini-consultations to get advice about their individual goals. Women who attend the event and are considering breast augmentation will have the chance to try on a range of breast implants.

"I think the relaxed atmosphere encourages women to be more candid in sharing their views about breast enhancement surgery and the reasons they are interested," Dr. Benedetti says. "It's a supportive environment and one that offers women a chance to learn about both surgical and non-surgical options regarding their cosmetic goals."

Wine and hors d'oeuvres will be served, and women can RSVP by phone at 727-289-7119. Dr. Benedetti will also be joined by his staff, giving women an opportunity to get a sense of the warm environment that Benedetti Cosmetic Surgery is known for.

"We want this event to be really educational and informative, but we also want it to be fun," Dr. Benedetti says. "In my years [performing breast augmentation](#) in the Tampa area, I've found that the patients who are most satisfied in the end are those who know what to expect, so they can move past any concerns to a mindset of confidence and excitement. That's what our event is all about."

Dr. Jeremy Benedetti ([www.benedetticosmeticsurgery.com](http://www.benedetticosmeticsurgery.com)) specializes in breast enhancement, body contouring, and facial rejuvenation for men and women from St. Petersburg and Tampa Bay, Florida, as well as patients from throughout the United States and abroad, at his private practice, Benedetti Cosmetic Surgery. He is certified by both The American Board of Plastic Surgery and American Board of Surgery. After earning his bachelor's degree from Miami University, Dr. Benedetti graduated with honors from the Medical College of Ohio. He completed his general surgery internship and residency at the University of California, Davis Medical Center and a residency in plastic and reconstructive surgery at University of Virginia Health Sciences Center. Dr. Benedetti is a member of the American Society of Plastic Surgeons® and The American Society for Aesthetic Plastic Surgery. He supervises a full-service medical spa located in the same state-of-the-art outpatient facility as his practice. Dr. Benedetti also participates in charitable surgical missions to treat children in Asia with facial deformities.
