

Update on GSK and BARDA \$200 Million Antibiotic Collaboration

GSK and BARDA provide unique insights into stimulating new antibiotic research through PPP's at SMI's 16th annual conference on Superdrugs & Superdrugs

LONDON, LONDON, UNITED KINGDOM, February 4, 2014 /EINPresswire.com/ -- SMI's Superbugs & Superdrugs conference series has become a focal point for everyone working in the market for infectious diseases. Attending provides a unique forum to engage with KOL's and leading industry experts active in the field. With now just 4 weeks to go until the 16th annual event, places are now strictly limited. For those who are interested in attending you can still book online at www.superbugssuperdrugs.com

When the U.S. government signed an antibiotics development deal worth up to \$200 million with GlaxoSmithKline to tackle the threats of drug resistance, the collaboration became the first of its kind.

Following on from this, Superdrugs & Superdrugs 2014 will provide unique insights from both GSK and BARDA. Attendees will hear James Anderson, European Partnerships Director from GSK, address the benefits of stimulating antibiotic research through public private partnerships, followed by a keynote address by BARDA Branch Chief, Joseph Larsen. Highlights from the presentation entitled: Working with BARDA, will include,

“

There is a paradigm shift in the way Pharma companies are tackling antimicrobial research. The funding of studies and the stance of the regulatory agencies are changing...

Sanofi, R&D TSU Infectious Diseases

Overview of BARDA,
The strategic way of solving critical health issues
Current research projects with BARDA
BARDA's support in new broad spectrum antibiotic research
