IHS and ITGP Announce Strategic Partnership to add eBooks for Software Engineering and IT Professionals

A new agreement means that IHS are now a global distributor of ITGP eBooks that address IT governance, risk management and compliance frameworks.

ELY, UK, February 14, 2014 /EINPresswire.com/ -- IHS Inc. (NYSE: IHS), a leading global source of critical information and insight, and IT Governance Publishing (ITGP), the world's leading IT-GRC publisher, today announced an agreement that allows IHS to sell around the globe the full range of eBooks and Pocket Guides from IT Governance. These eBooks and guides cover IT-GRC frameworks such as information security and cyber security, standards compliance, business continuity and Green IT, among many other topics.

IT Governance Publishing is the world's only niche IT governance publisher with practical publications relevant for all IT professionals, from the C-Suite to network administrators. Delivering high-quality content based on international standards and best practice, popular publications from IT Governance cover all IT governance, risk and compliance frameworks and include IT Governance: Implementing Frameworks and Standards for the Corporate Governance of IT, Implementing Service Quality based on ISO/IEC 20000, Green IT in Practice, and Running IT Like a Business.

IT Governance publications will be accessible via the newly introduced IHS Knowledge Collections, a solution that allows technical professionals to quickly access critical information to bring best practices, design guidelines, eBooks, industry standards, patents and other trusted technical know-how to the fingertips of researchers. For example, IT professionals who research best practices in protecting information assets can discover the rich guidance and best practices for implementing the ISO/IEC 38500 international standard and the Calder-Moir Framework. IT professionals will also have single point access to view the ISO/IEC 38500 standard, find other industry articles and reports for implementation approaches and challenges and focus on developing and executing new infrastructure plans. As a result, researchers could reduce work time from weeks or months to days.

IHS Knowledge Collections is the only solution available to technical professionals that combines the full range of eBooks, standards, best practices, engineering know-how, patents and other critical technical information in a single platform, called IHS Standards Expert® with Goldfire®.

NOTES TO EDITORS:

IHS (NYSE: IHS) is the leading source of information, insight and analytics in critical areas that shape today's business landscape. Businesses and governments in more than 165 countries around the globe rely on the comprehensive content, expert independent analysis and flexible delivery methods of IHS to make high-impact decisions and develop strategies with speed and confidence. IHS has been in business since 1959 and became a publicly traded company on the New York Stock Exchange in 2005. Headquartered in Englewood, Colorado, USA, IHS is committed to sustainable, profitable growth and employs more than 8,000 people in 31 countries around the world.

IT Governance Ltd is a leading authority on cyber security and IT governance for business and the public sector. IT Governance is 'non-geek', approaching IT issues from a non-technology viewpoint and talking to management in its own language. The company's customer base spans Europe, the Americas, the Middle East, South Africa and Asia.

Part of IT Governance Ltd., IT Governance Publishing is the world's leading IT-GRC publisher, with books and tools covering all IT governance, risk and compliance frameworks. Formed in 2005, the initial success of the ITGP product range was based on CEO Alan Calder's popular and successful books on information security and IT governance.
