

Shopping For A Wood Fence In Florida? Fence Outlet Recommends Cypress

Fence Outlet says Cypress wood handles Florida's varied climate and it is insect resistant.

ORLANDO, FLA., USA, February 27, 2014 /EINPresswire.com/ -- [Fence Outlet](#), Central Florida's fencing experts, showcases a wide variety of fence products, each offering distinct advantages, but when it comes to wood in Florida, Fence Outlet strongly recommends Cypress.

According to Fence Outlet owner & founder, Rajul Patel, Cypress is the clear choice in Florida. "Cypress wood is native to Florida so it handles our inconsistent wet-to-dry climate. It requires no chemical treatments and is naturally resistant to termites and insects," he said. "Cypress is also a denser, more fibrous wood that does not warp and twist in Florida's high humidity."

Known for its beauty and durability, Cypress is among the most popular wood fences on the market. It is available in each of Fence Outlet's five locations: Orlando, Oviedo, Tampa, Port Richey and North Port. "When you consider all of its benefits and characteristics, all of us at Fence Outlet agree that when it comes to wood, Cypress is your best bet," said Patel.

Fence Outlet customers enjoy flexible buying options offered at Fence Outlet, including zero-percent financing for 12 months. After they purchase their new wood fence, many customers turn to Fence Outlet for the professional, timely and quality [fence installation](#). "Our team in the showroom or on-line will help you measure your project and assist with ordering all the materials," said Patel. "Then, you can turn the entire professional installation over to Fence Outlet for a complete turnkey project."

About Fence Outlet:
