There is a lot that goes into buying a new home, but it doesn't have to be an overwhelming or stressful process.

*Bryony Chandler*

This easy to understand eBook helps to answer some of the most common questions that first time homeowners often face when navigating the sometimes intimidating purchasing process.

"There is a lot that goes into buying a new home, but it doesn't have to be an overwhelming or stressful process. We've assembled some of our most powerful tips in our new home buyers guide to help buyers better understand their options for everything from property selection to financing," said Bryony

Chandler, Marketing Coordinator at BGC Residential Pty Ltd  
(<http://www.wahousingcentre.com.au/about-us>).

By filling out a simple form on the WA Housing Centre website, prospective homeowners will have access to a wide range of information, including:

- How to choose a home and land package tailored to a specific budget and lifestyle.
- How to determine and access the best available financing options.
- How to gain access to all of the Government grants buyers may be eligible for, including the First Home Owners Grant (FHOG)
- How to determine what buyers can afford to borrow and what deposit they might need.

In addition, the guide includes a handy First Homebuyer Checklist to help guide readers through the initial stages of purchasing and building their first home. The checklist was developed using the more than two decades of experience WA House Centre has helping clients build their first new home.

"It's our goal to ensure that all of the families we assist have all of the information they need to not only achieve their dreams of homeownership, but to do so in a way that ensures they get the best

possible value from their purchase. From details about the FHOG in WA, to information on how to receive concessions on stamp duty for their first home, our guide is designed to offer easy answers to sometimes complicated questions," Chandler said.
