"Most people don't realise that new homes are not fully finished and ready to move-in when construction is complete. Standard home designs don't always include finishing items such as flooring, window treatments, or painting. With a turnkey package, all of these things are taken care of for the buyer before they move in. The home is 100% read to move-in and homeowners won't have to do a thing but bring their furniture," said Mark Anderson Commodore Homes General Manager (www.commodorehomes.com.au).
