

Trucking Authority Andy Ahern to Appear on Road Dog Trucking News

Ahern & Associates CEO Andy Ahern is due to be interviewed by Mark Willis on Road Dog Trucking to provide his insight and analysis on the challenges facing the industry today.

PHOENIX, AZ, UNITED STATES, April 14, 2014 /EINPresswire.com/ -- Road Dog Trucking News is one of the most popular talk stations available on satellite radio among truckers and those in the transportation and logistics industries. With a regular listening audience of almost a million across the nation it is relied on as a source of industry news and analysis by many and this is particularly true for Mark Willis' regular 2pm News slot. Mark regularly features interviews with industry heavyweights and recently requested an interview with trucking luminary Andy Ahern.

Andy Ahern is CEO of Ahern and Associates, the leading trucking and logistics consultancy firm in the United States and is a forty year veteran of the industry. Having been personally involved in over four-hundred and fifty trucking and logistics mergers and other company transactions Andy is uniquely knowledgeable about the pressures, difficulties and opportunities facing trucking companies of all sizes and industry sectors. His recent defense of the trucking industry in his highly popular weekly podcast, his widely distributed industry newsletter and a string of press releases and online interviews and articles has been part of a determined push on his part to raise the profile of an industry that is often shown in a negative light.

It was this stance that played a major role in Road Dog Trucking's request to have him provide his industry analysis and advice on the hot topics of the day. Though the precise topics that will be discussed are unknown it is expected that the ongoing impact of the recent hours of service ruling and the worsening driver shortage will feature heavily as these are some of the biggest issues facing not only business owners but the industry as a whole.

Road Dog Trucking is available via Sirius XM satellite radio on channel 128. For more information on Ahern & Associates, please call 602-242-1030 or visit <http://www.ahern-ltd.com>.
