

PCRx.com, LLC Releases PCRx Backup Cloud Storage for New Nokia(R) X Android(TM) Series

BOCA RATON, FL, USA, May 1, 2014 /EINPresswire.com/ -- [PCRx Backup](#), One of the First [Unlimited Cloud Backup](#) and Storage Services Available for the New Nokia® Product Line, Provides Secure Protection for Smartphone Data

PCRx.com, LLC, a leading innovator of cloud storage technologies and security software applications, announces the release of PCRx Backup for the Nokia® X Android™ series. As one of the first unlimited cloud backup and storage services available for the recently released Nokia® X Android™, PCRx Backup provides users with secure automatic backup of their smartphone data into a personal cloud account with easy file access and retrieval.

PCRx Backup stores and [protects Nokia® X Android™ users'](#) contacts, full resolution photos and videos, housing them in a certified SOC 2, PCI, DSS 9 and 12, top-tier cloud data center, featuring advanced security and 24/7 availability. Stored cloud data is accessible through a secure login and Internet connection using a mobile device or PC. Files transferred across the Web are encrypted using advanced SSL technology for secure data delivery.

Key Features of PCRx Backup include:

- Unlimited cloud storage capacity with secure login access
- A small application using minimal system resources
- No annoying advertising
- User-friendly interface for easy data backup, storage, and retrieval
- Choice of automatic or manual backups
- File restoration and versioning options
- Easy recovery of backed up data from lost or stolen devices
- Advanced encryption SSL protocol for secure, safe data transfer and storage
- Enterprise-class cloud platform to ensure data availability
- Apps supporting PC, Mac®, laptop, tablet, and additional mobile devices
- Access to knowledge base, community support, phone, and online ticket support

“As one of the first cloud storage providers and backup services available for Nokia® X Android™, PCRx Backup is a key innovator in the mobile device arena,” commented Robert Ӧsterlund, Founder of PCRx.com. “PCRx Backup is specifically designed to give users peace of mind, knowing that their life's experiences on their smartphones are safely protected and available whenever and wherever they need them.”

Availability

PCRx Backup is now available in countries where the Nokia® X Android™ product line, including X, X+, and XL, is offered and can be downloaded onto the phone through the Nokia® store at <http://store.ovi.com/content/503528>. In addition to Android™, PCRx Backup also supports personal computers and mobile devices using Windows XP®, Windows Vista®, Windows® 7, Windows® 8, Windows Phone®, Apple® iOS®, OS X® 10.7, and Chrome OS™. To access the download of these other versions and more information, visit the PCRx Backup website at www.pcrxbackup.com.
