Friedlinghaus had this to say about the opening endeavor, "Bringing this shop back to Los Angeles has been a long time in the making and we are happy to be in such a great, central location like Burbank. Being in close proximity to several music labels, major film studios and television networks, we are pleased to be continuing our longtime collaborations with existing sponsors, partners and clients and look forward to forging new ones. We believe that this move will also allow us the opportunity to expand our customer base to not only include the high end luxury build-clients we are known for but, also include the casual enthusiast who will be able to get a whole new look for their vehicle, in just an afternoon, or even the non-enthusiast who is able to get custom wheels and tires while they wait. We have such a wide range of custom packages, for any type of project or budget, available now in this new, much larger facility – it's a really exciting time for West Coast Customs."

A true lifestyle destination, West Coast Customs Burbank features a sumptuous West Coast Customs Coffee Bar; a Build Your Dream Car HP touch-screen wall; daily guided tours on the WCC catwalk, two stories above the bustling work areas and a 5,000 square foot TV production area, where the popular television show touting the shop name, West Coast Customs, is filmed.
