

# FlipHTML5 Flip Book Maker Has Been Updated to V2.9.0

*FlipHTML5 Software Co., Ltd announces new features provided by its latest flip book maker. Many details have been improved to be more user-friendly.*

HONG KONG, CHINA, April 3, 2015 /EINPresswire.com/ -- FlipHTML5 Software Co. Ltd, the innovators in e-publishing software have introduced a wide range of digital publishing products for personal and corporate use. Headquartered in Hong Kong the company initiated the digital publishing business as novices and grew to be the pioneers of the industry. FlipHTML5 [flip book maker](#)

has become the current trend setter in digital magazine publishing software offering convenience to digital magazine publishers around the world.

Flip Book Maker to publish PDF to flip book easily.

FlipHTML5 recently released V2.9.0 of FlipHTML5 flip book maker enhancing its already remarkable features. With the latest update of the software, users can reserve and import source PDF links to the Animation editor. A new audio player with more options to choose from can also be added according to the will of the user. The developers have enabled new advanced event actions such as Changing of Embed Code, Changing of Moving Object Settings and Changing of Moving Background Settings. Further, users can customize suitable actions for embedded advanced events. Taking the digital magazine viewing to a whole new level, the new update introduces advanced "Touch to Flip" option. While reading a digital magazine created on FlipHTML5 flip book maker, users have the ability to flip the pages or flip the photos of a slideshow that is integrated to the pages by touching the screen of the device. The empty URL issue of Component Image, Background Sound, Audio Player and Video Player can also be fixed through the novel update and the "Initial Volume" is supported by Component Background Sound & Audio Player. Under the new update components, resetting to default status when flipping the page is possible. Several minor details, which make the software smoother, have also been advanced for the satisfaction of the users.

Products of FlipHTML5 Software Co. Ltd are implemented by skilled and competent developers who are equipped with the state-of-the-art technology and knowledge. A variety of customized software for production of digital website content, online user manuals, digital annual reports, flipping e-magazines, flip PowerPoint presentations, flip slide photo album and many more are

offered for many industries. FlipHTML5 flip book maker, the strong suit of the company, is highly popular among digital magazine readers due to its attractive and sophisticated features. The success of the FlipHTML5 flip book maker is proven through the statistics and comments of the pleased users.
