[Global UAV Market Research Report- Forecast to 2021](#)

As per the MRFR analysis, cost effectiveness is one of the key drivers for global UAV market to acquire and operate in comparison to manned aircraft and helicopters. The challenges associated with the market are the low endurance and stringent regulation associated with civilian and commercial usage of UAVs.

The United States is leading the global UAV market; however the demand has increased from emerging nations such as EMEA and Asia Pacific in relation to growing defense spending to counter national security threat.
