Our mission has always been to make Windows software more accessible for everyone. We believe that you should have the freedom and flexibility to pluck any Windows software the user needs from the cloud, whenever and wherever he or she needs it. Not only that, we don't believe that the user should be forced into long-term financial commitments. We reckon that pay-as-you-go is the way to go.

A revolution in software distribution from cloud

*Vaclav Svatek, CEO Apponfly*

AppOnFly first had the idea to deliver apps from the cloud way back in 2005 (light years in tech years!) and have been perfecting the platform for doing this ever since. The AppOnFly platform is now capable of delivering an ever-increasing choice of professional Windows apps from the

cloud, within just a few seconds.

Amongst the software to choose from are above all [IBM SPSS Modeler](#), [Microsoft Access](#), Microsoft Office, [Microsoft Project](#) and Microsoft Visio and others.
