

Global Wind Power Market 2016 Share, Trend, Segmentation and Forecast to 2020

Wind Power -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021

PUNE , MAHARASHTRA, INDIA, September 19, 2016 /EINPresswire.com/ -- [Wind Power](#) Industry

Description

Wiseguyreports.Com Adds "Wind Power -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2021" To Its Research Database

"Wind Power Market, Update 2016 - Global Market Size, Average Price, Turbine Market Share and Key Country Analysis to 2025", the latest report from industry analysis specialist GlobalData, offers comprehensive information and analysis of the global wind market.

Report Detail's@ <https://www.wiseguyreports.com/reports/644207-wind-power-market-update-analysis-to-2025>

The report provides a clear overview of and detailed insight into the global wind market. It provides data covering historic and forecast market size, average capital cost, installed capacity and generation for onshore and offshore wind globally, and in ten key wind power markets - China, India, Brazil, Canada, Turkey, UK, US, South Africa, Germany, and Japan. The report analyzes key market aspects which determine wind sector and provides information on average turbine size, GHG emission reductions, employment opportunities, homes powered, turbine market share, capacity share by capacity range and import - export in wind sector.

The report uses data and information sourced from proprietary databases, primary and secondary research, and in-house analysis by GlobalData's team of industry experts.

Scope

The report includes -

- Wind market study at global level and at key country level, covering countries such as China, India, Brazil, Canada, Turkey, UK, US, South Africa, Germany, and Japan
- Historic and forecast data for cumulative and annual installed power capacity and power generation for onshore and offshore wind
- Market size and average capital cost data at country and global level
- Statistics related to average turbine size, GHG emission reductions, employment opportunities, homes powered, turbine import - export
- Turbine market share at country and global level

Reasons to buy

- Facilitate decision-making based on strong historic and forecast data for the wind power market
- Maximize potential in the growth of the wind power market

- Identify key partners and business-development avenues
- Respond to competitors' business structure, strategy and prospects

Table of Contents

1 Table of Contents	5
1.1 List of Tables	10
1.2 List of Figures	11
2 Introduction	20
2.1 Wind Power, Definition	20
2.2 Wind Power, Technology Overview	20
2.3 Wind Turbine and Components	21
2.4 GlobalData Report Guidance	23
3 Global	24
3.1 Snapshot	24
3.2 Installed Capacity	24
3.2.1 Regional Share	28
3.2.2 Key Country Share	30
3.3 Average Turbine Size	32
3.4 Power Generation	34
3.5 Influences on Economy and Environment	36
3.6 Costs and Market Size	40
3.7 Manufacture and Trade	42
4 China	44
4.1 Snapshot	44
4.2 Installed Capacity	44
4.3 Average Turbine Size	49
4.4 Power Generation	50
4.5 Influences on Economy and Environment	51
4.6 Costs and Market Size	55
4.7 Manufacture and Trade	57
4.8 Grid Curtailment	62
4.9 Inner Mongolia still Leads among Provinces	63
4.10 Contracts by FIEs	64
4.11 Strong Policy Support	65
5 India	66
5.1 Snapshot	66
5.2 Installed Capacity	66
5.3 Average Turbine Size	74
5.4 Power Generation	75
5.5 Influences on Economy and Environment	77
5.6 Costs and Market Size	80
5.7 Manufacture and Trade	82
5.8 Repowering	88
5.9 T&D Issues and Curtailment	89
5.10 Finance and Infrastructure Barriers	90
5.11 Refreshed Government Interest in Promoting Renewable Energy	91

6	Brazil	92
6.1	Snapshot	92
6.2	Installed Capacity	92
6.3	Average Turbine Size	94
6.4	Power Generation	95
6.5	Influences on Economy and Environment	97
6.6	Costs and Market Size	101
6.7	Manufacture and Trade	102
6.8	Auctions	108
6.9	Developer-Friendly Policies Introduced in 2014	111
6.9.1	Resolution Number 462/2014	111
6.9.2	Grid Connection Rules	111
6.9.3	Tax Exemptions for Components	111
7	Canada	112
7.1	Snapshot	112
7.2	Installed Capacity	112
7.3	Average Turbine Size	114
7.4	Power Generation	115
7.5	Influences on Economy and Environment	117
7.6	Costs and Market Size	120
7.7	Manufacture and Trade	121
7.8	Provincial Policy Support	126
7.9	Alberta's Market and Operational Framework for Wind	127
8	Turkey	130
8.1	Snapshot	130
8.2	Installed Capacity	130
8.3	Average Turbine Size	132
8.4	Power Generation	133
8.5	Influences on Economy and Environment	135
8.6	Costs and Market Size	137
8.7	Manufacture and Trade	138
8.8	Ege and Marmara Remain the Regions with Largest Installed Capacity	144
8.9	Feed-in Tariffs Provide Major Support for Wind Power Capacity Addition	145
8.10	Land Legislation that Supports Wind Power	145
8.11	Bureaucratic Bottlenecks Still an Issue	145
9	UK	147
9.1	Snapshot	147
9.2	Installed Capacity	147
9.3	Average Turbine Size	150
9.4	Power Generation	151
9.5	Influences on Economy and Environment	154
9.6	Costs and Market Size	158
9.7	Manufacture and Trade	160
9.8	Scotland and the Irish Sea Had the Largest Capacity Additions in 2015	166
9.9	FiT for Onshore Wind Farms/Plants	168
9.10	ROC and CfD	169
9.11	Impact of UK's Withdrawal from the European Union	169
10	US	170
10.1	Snapshot	170
10.2	Installed Capacity	170
10.3	Average Turbine Size	175
10.4	Power Generation	177

10.5 Influences on Economy and Environment	179
10.6 Costs and Market Size	182
10.7 Manufacture and Trade	183
10.8 Clean Power Plan and PTC extension Give a Very Optimistic Outlook	189
11 South Africa	190
11.1 Snapshot	190
11.2 Installed Capacity	190
11.3 Average Turbine Size	192
11.4 Power Generation	193
11.5 Influences on Economy and Environment	195
11.6 Costs and Market Size	197
11.7 Manufacture and Trade	198
11.8 Auctions through the REIPPPP	201
11.9 Development of a Wind Atlas to Make Installations More Efficient	201
12 Germany	203
12.1 Snapshot	203
12.2 Installed Capacity	203
12.3 Average Turbine Size	208
12.4 Power Generation	210
12.5 Influences on Economy and Environment	212
12.6 Costs and Market Size	215
12.7 Manufacture and Trade	217
12.8 North Sea is Home to Majority Offshore Capacity	222
12.9 Reforms to the Existing renewable Energy Act	223
