According to Researcher, [the High Performance Films Market](#) accounted for \$28.34 billion in 2015 and is expected to reach \$49.56 billion by 2022 growing at a CAGR of 8.3% from 2015 to 2022. Rising technological advancements in field of high performance films is one of the key factors fueling the market growth. However, factors such as huge capital cost and high level of technical competency are hampering the market. Bio-Degradable and Water Soluble Films are providing ample of growth opportunities for the vendors in the market.

Packaging held the largest share in terms of revenue during the forecast period as it has

become a necessary item, with its usage rising widely in line with the global economy. Fluoropolymers segment commanded the market owing to increasing demand from automotive sector. Asia-Pacific is the largest market for these films, with major developments observed in China, Japan, India, South Korea, and Indonesia. Moreover, Asia-Pacific is also projected to be the fastest-growing market due to rising investments in infrastructure development and construction projects.
