

E-cigarettes Market: Forecasts from 2016 to 2021

E-Cigarettes market is estimated to witness a compound annual growth rate of 35% over the forecast

PUNE, INDIA, September 21, 2016 /EINPresswire.com/ -- [Global E-cigarettes Industry](#)

E-Cigarettes market is estimated to witness a compound annual growth rate of 35% over the forecast period to reach a total market size of \$10.687 billion by the end of 2021. Increasing health issues among smokers and passive smokers in their vicinity all over the world has augmented the need for a more harmless solution for this problem; E-cigarettes are such products which are witnessing huge demand across the world though its benefits are yet to be proved by leading health agencies. E-cigarettes are electrically stimulated cigarettes that produce a sense of smoking without the tobacco which is the key toxin in an ordinary cigarette that's why consumption of an E-cigarette is known as 'vaping' rather than 'smoking'. E-Cigarettes ensure a healthier life for the people who are into chain smoking by a more easily adaptable concept.
