

Global Aerospace Lavatory System Market Likely to Grow at 5.2% CAGR from 2016 and Reach \$538 Million by 2021

Extensive Market Research Report from Stratview Research includes Trends, Forecasts, Competitive Analysis and Strategic Growth Opportunities.

DETROIT, MI, UNITED STATES, September 21, 2016 /EINPresswire.com/ -- Stratview Research announces the launch of a new market research report on [Global Aerospace Lavatory System Market](#) by Aircraft Type (Narrow Body, Wide Body, Very Large Body, Regional, and Business Aircraft), by Platform Type (B737, B747, B777, B787, A320 Family, A330 / A340, A350 XWB, A380, B737 Max, B777X, A320 neo, E 175, C Series, Others), by Lavatory Type (Standard,

Modular, and Customized), by Toilet Type (Reusable, Re-Circulating, and Vacuum Toilets), by Product Type (Toilet Module, Toilet Cabinet, Wash Basin Assembly, PSU Oxygen System, Others), by fit type (Line and Retro), by Region (NA, Europe, APAC, ROW), Trend, Forecast, Competitive Analysis, and Growth Opportunity: 2016 – 2021.

This market report from Stratview Research studies the aerospace lavatory system market over the period 2010 to 2021. The research report provides detailed insights on the market dynamics to enable informed business decision making and growth strategy formulation based on the opportunities present in the market.

The Global Aerospace Lavatory System Market: Highlights

Stratview Research foresees a strong growth of 5.2% (CAGR) in the aerospace lavatory system market over the next five years (2016 – 2021) to reach \$538 million in 2021, which offers an opportunity to the aerospace industry players to align themselves with the market growth.

There are a number of factors bolstering the growth of aerospace lavatory system market in aerospace industry. The author of the industry report cited increasing commercial & regional aircraft deliveries and growing commercial aircraft fleet size as the key drivers in the global aerospace lavatory system market.

In terms of toilet type, vacuum flush system based lavatory system has more than three decades of industry dominance, accounting for more than 80% of the total market in 2015 and are likely to remain dominant over the next five years.

The author stated that wide body aircraft segment is expected to remain the growth engine of the aerospace lavatory system market during the forecast period. North America is expected to remain

the dominant region for the market, the region being the manufacturing hub of major commercial aircraft manufacturers, i.e. Boeing and Bombardier. Top four countries are the US, France, Germany and China.

The global aerospace lavatory market is highly consolidated with presence of half a dozen players. The key lavatory system manufacturers are Zodiac Aerospace, Jamco Corporation, B E Aerospace, Diehl Comfort Modules GmbH, and Yokohama Rubbers.

New product development, regional expansion, and long term contacts are the key strategies adopted by the key players to gain competitive edge in the market. All the players are developing compact lavatory systems to increase the cabin space for adjusting more number of seats per aircraft, advanced system, such as bidet system, and compact vacuum toilets.

Report Features

This industry research report from Stratview Research provides market intelligence in the most comprehensive manner. The report structure has been kept such that it offers maximum business value. It provides critical insights on the market dynamics and will enable strategic decision making for the existing market players as well as those willing to enter the market. The following are the key features of the research report:

- Market structure: Overview, industry life cycle analysis, supply chain analysis.
- Market environment analysis: Growth drivers and constraints, Porter's five forces analysis, SWOT analysis.
- Market trend and forecast analysis.
- Market segment trend and forecast.
- Competitive landscape and dynamics: Market share, product portfolio, product launches, etc.
- Attractive market segments and associated growth opportunities.
- Emerging trends.
- Strategic growth opportunities for the existing and new players.
- Key success factors.

About Stratview Research

Stratview Research is a global market intelligence firm providing wide range of services including syndicated market reports, custom research and sourcing intelligence across industries such as Advanced Materials, Aerospace & Defense, Automotive & Mass Transportation, Consumer Goods, Construction & Equipment, Electronics and Semiconductors, Energy & Utility, Healthcare & Life Sciences and Oil & Gas.

We have a strong team of industry veterans and analysts having an extensive experience in executing custom research projects for mid-sized to Fortune 500 companies in the areas of Market Assessment, Opportunity Screening, Competitive Intelligence, Due Diligence, Target Screening, Market Entry Strategy and Voice of Customer studies.

Stratview Research is a trusted brand globally, providing high quality research and strategic insights that help companies worldwide in effective decision making.
