

# EDUCATIONAL ACTIONS OF THE PREVENTION OF POSSIBLE AEDES

---

*Project Prevention vector of dengue, Chikungunya and ZIKA*

SÃO PAULO, SELECCIONE A SUA ESTADO, BRASIL, September 23, 2016 /EINPresswire.com/ -- EDUCATIONAL ACTIONS OF THE PREVENTION OF POSSIBLE AEDES breeding AEGYPTI PERFORMED TO THE COMMUNITIES IS STILL ONE OF THE GREAT effective ways to block the spread of diseases caused by this vector.

The costs of chemicals and their applications in countries such as Brazil tropical rains almost daily in their great majority of the states (cities), makes us the people we create effective alternatives to preventive measures against breeding. Educating communities for knowledge and understanding of the risks and guidance to conduct preventive procedures of vector breeding in their homes, their neighborhoods and cities, every citizen is a potential MULTIPLIER PREVENTIVE regardless of age, this has been our work in the communities. Today we need your help to broaden our work. As is reported by the international press are in crisis beckoning economic improvement and sustainable policy. The lack of resources to implement and streamline the project, our question is would it be possible to have them as sponsors partners as they evaluate our Educational Project Prevention vector of [dengue](#), [Chikungunya](#) and ZIKA? We can give reciprocity to your organization for our actions INNOVATIVE PRACTICES WITH PROVEN RESULTS EFFECTIVE. Thank you for your brevity. See one of our examples and finding appropriate will send more information. Gently.
