

# Tamils For Clinton: New book reveals Trump's presidency will be ceased by Constitutional Crisis, Dictatorship & Hatred.

WASHINGTON DC, USA, September 30, 2016 /EINPresswire.com/

--

Member of Tamils for Clinton, Mr. Rajeev S. Sreetharan, a lawyer, writer, and human rights activist, has published a book titled "The Trump Card."

This book discusses how our country will suffer from Trump's presidency due to his unpredictability, sexism, hatred towards immigrants, blatant lies and, his psychological volatility.

Tamil spokesman for Tamils for Clinton stated, "Watching Mr. Trump on his campaign trail, we have witnessed his manipulation of

domestic and foreign policies, his lack of knowledge of constitution and his display of unprecedented narcissism which would disqualify him from becoming president of the United States of America."

"This book 'The Trump Card' goes into further details, exposing how Trump's presidency, based on his past behavior, creates a constitutional crisis that eventually would lead to chaos and instability."

The Tamil spokesman believes that "every American should read this book before going to the polls on November 8, 2016"

Quotes of interest from the book:

- American Constitutional Crisis, Roman Dictators, and the Neoimperial Presidency is a political and legal analysis of the grave, sui generis risks that a black swan event like a Trump presidency would likely pose to the status quo norms of American constitutional politics.

- Mr. Trump is inexperienced, untested, and psychologically volatile. Mrs. Clinton is the wife of former President Bill Clinton, the former Secretary of State of the Obama administration, and for better or worse, is a vetted, tried, tested, safer, and an electable presidential candidate who presents known, familiar risks.

- From Trump's vituperative tweet storms to uncivilized public diatribes, stories about Trump routinely permeate the 24-7 digital news media cycle. Stories about Clinton are often no more than stories

about her personification of a cure for Trump-phobia.

- A significant point of distinction between a Trump presidency and Clinton presidency is the notion of presidential risk. If Trump's campaign foreshadows his administration, Trump simply presents unknown, unprecedented risks to American politics and global leadership that are amplified by the immense power attached to the American presidency.

The risks that a Clinton presidency poses do exist, but within a normative spectrum. These are simply different in degree and kind from the risks presented by a Trump presidency.

Tamils for Clinton is a political activist group comprised of Americans with the majority being Tamil Americans. They believe that over 145,000 Tamil civilians living in Sri Lanka were massacred during the last weeks of the Sri Lankan ethnic war. They have also observed post war behaviors of the Sri Lankan Sinhalese victors, and concluded that Tamils in Sri Lanka will only be safe when this war torn island is divided into two individual self-governing nations.

It is of interest to note that according to UN Internal Review Report on Sri Lanka, around 70,000 Tamil civilians may have been massacred in the last six months of the ethnic war. Also, Catholic Diocese, Rt. Rev. Dr. Rayappu Joseph, the Bishop of Mannar in Sri Lanka gave a presentation to the Sri Lankan Lessons Learnt & Reconciliation Commission, exposing to the world that over 146,679 Tamil civilians in the area of Vanni were not accounted for in post-war Sri Lanka
