[Global Refining Catalysts Market Research Report - Forecast to 2021](#)

The global refining catalysts market has experienced a notable growth over the past few years and it has been expected that the global market will remain in a growing stage due to the increasing demand of refining catalyst in the in fuel and energy across the globe. The refining catalysts are primarily used in refining and enhancing the fuel which are used for transportation. The growing demand for fuel will escalate the demand of refining catalyst specifically in emerging as well as developed regions. On the other hand, the market would be restricted by the factors such as high production cost, stringent rules and regulations, fluctuating crude oil prices and others. Geographically, North America would be the leading regions due to the huge demand for fuel and growing transportation industry, followed by Asia-Pacific and Europe.
