“Performance Appraisal and Management

Software 2016 Global Market Expected to Grow at CAGR 8.74% and Forecast to 2020”.

The analysts forecast the [global automotive ASHR market](#) to grow at a CAGR of 8.74% during the period 2016-2020.

AHSR were first mandated for use in racing cars and was known as the head and neck support (HANS) device. Many car racing motorsports, including the National Association for Stock Car Auto Racing (NASCAR), have now made HANS a compulsory feature to be added in sports cars participating in its events. The HANS device is used to maintain the relative position of the head to the body during a rear-impact collision. In addition, the device transfers the crash energy to stronger regions of the victim's body, including the chest and torso.
