

# Alternative Parts Inc. Launches Free Mobile App for Metal Fabrication Calculations

*Alternative Parts Inc. recently launched a mobile application for metal fabrication professionals. Christened API Metal Fabrication Calculator is a handy toolkit.*

BELLPORT, NEW YORK, USA, November 23, 2016 /EINPresswire.com/ -- [Alternative Parts Inc.](#), the leading manufacturer and distributor of replacement parts for Amada Machinery based in New York, recently launched a [mobile application](#) for metal fabrication professionals. Christened API Metal Fabrication Calculator is a handy toolkit for all metal fabrication projects and is a boon for operators and engineers and is completely free to download and use.

Elaborating more about the usefulness and need for the app in the market, Steven Glassner, the GM of Alternative Parts Inc. added, "The API app is designed as a one stop resource for all your metal fabrication projects, packed with programs designed to assist you with your machine operation. This app has resources that would help everyone from the engineers and the operators on the floor, to the office workers and purchasing department. This App features a calculator, unit conversion tool, currency converter, tonnage calculator, press brake chart, and a convenient way to ask Alternative Parts about any of our machine parts. It also offers a way of keeping up to date with current promotions we are running."

The Mobile app is equipped with the following tools and features:

- Calculator: A standard calculator featuring more advanced functionality such as tangents and logarithms.
- Currency Converter: Users can convert any 2 currencies quickly and easily. Great for overseas purchases for all your metal fabrication projects.
- Tonnage Calculator: Users can calculate the amount of tonnage needed to punch a hole in different types of metal based on material type, and thickness.
- Bending Chart: For use with Press Brakes, this helps find the pressure needed to bend the material, opening of the Die to be used, and minimum bendable Flange length.
- Unit conversion Calculator: This calculator allows easy conversion of units of distance, Mass, Pressure, and Volume.
- Ask A Machine Parts Question: If users have a question about a CNC machine part or are looking for a replacement part for their metal fabrication machine, they can easily send a question to API from within the app.
- Current Promotions: This feature allows users to keep up to date with all promotional offers from Alternative Parts Inc as well as new CNC machine parts available.

API Metal Fabrication calculator is a one-of-its-kind app and is available from both Apple App Store

and Google Play Store.

To know more about the app please download it from Google play store from the link below

<https://play.google.com/store/apps/details?id=com.biztech.altparts&hl=en>

For iPhones and iPads you can also download it for free from the App Store.
