

Global Video Surveillance Market by Manufacturers, Regions, Development, Demand, Type and Application, Forecast to 2022

Video Surveillance Global Market – The research report highlights market research and industry analysis driven by in-depth business relevant news.

PUNE, INDIA, November 24, 2016 / EINPresswire.com/ -- Video Surveillance Market:

Report Description

The system of security or dynamics of the physical security industry have changed in past couple of years due to the ongoing innovations and advancements in its dominating contributor, i.e. Video Surveillance. High effective ratio and high stability in the application areas such as infrastructure, highways, banking, and BFSI among others have become promising beneficiaries of video surveillance. This helps in the making of Video Surveillance an indispensable tool to ensure public safety as well as personal safety. Owing this factor, the global video surveillance industry has rose over \$8.35 billion in the past from 2014 to 2016.

North America continues to dominate the market closely followed by Asia-Pacific region. High sales from the IP cameras and VS software and services are primary factor which is supporting the market in North America. The low price of equipment's and growth in the emerging countries such as India and China are the key factors for the high growth in Asia-Pacific region. Increasing demand from the government, and retail sectors is expected to drive the market in ROW.

Key Players

The leading market players in the global Video Surveillance market primarily Avigilon Corporation (Canada), Axis Communication (U.S.), D-Link Corporation (U.S.), Genetec (Canada), Milestone Systems (Denmark), Panasonic Corporation (Japan), Mobotix AG (Germany) Samsung Techwin Co. Ltd (Korea), and Bosch Security systems (Germany) among others.

Study Objectives of Video Surveillance Market Development and Demand Forecast to 2022 Market • To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the global Video Surveillance market development and demand market

- Upcoming technologies, high growth geographies and countries were identified
- Regional and country specific demand and forecast for Video Surveillance were studied
- Key segments covered in the report are: Equipment, Software & Services, Applications and region
- Unit breakdown for all different classification was finalized; and same was referred for forecasting, keeping few assumptions into factor

• For all the regions: forecast demand for all applications were identified and then with historical

figure, data collected through primary and annual reports were triangulated to derive the regional market size

• Historical trend is identified to forecast and estimate the future value data

Target Audience

- Government
- Security Service Providers
- Hospitality Industry
- Institutions
- SMEs
- Large Organizations
