

Global Software-Defined Security Market Research, market Share, Competitor Strategy, Industry Trends, Forecast to 2022.

Global Software Defined Security Market, by Deployment(Cloud, On-premise),by Application (Telecommunication, Government, Education), by Solution - Forecast 2022

“ We enable our customers to unravel the complexity.”

PUNE, MAHARASHTRA, INDIA,
November 25, 2016 /EINPresswire.com/ -- Market Synopsis of Software-Defined Security Market
Market Scenario

The major growth driver of Software-Defined Security Market includes growing demand for increased server security by enterprises, growing market of cloud based infrastructure and rising demand for managing unstructured data of business intelligence among others.

Global Software-Defined Security Market projected to register a significant Growth Rate in the nearby Future analysis

Market Research Future

Hence the market for Software-Defined Security is expected to grow at XX% CAGR (2016-2022).However, lack of technical expertise and threat to data security are some of the factors which are hindering the growth of Software-Defined Security Market.

Key Players

Some of the major players in Global Software-Defined

Security Market include

- Intel Corporation (U.S.),
- Cisco systems Inc. (U.S.),
- EMC Corporation (U.S.),
- VMware Inc. (U.S.),
- Citrix systems Inc. (U.S.),
- Fujitsu LTD. (Japan),
- Symantec Corporation (U.S.),
- Ericsson Inc. (Sweden),
- IBM Corporation (U.S.),
- Dell Inc. (U.S.) among others.

Industry News:

- Symantec Corporation has acquired Blue coat, Inc. in August 2016 to implement its integration

strategy and thus accelerating its commitment to innovate cyber security solution.

- Intel Corporation has launched software defined security controller in year 2014. The software has defined to provide security to hybrid data centers and other software defined infrastructure.

Segments

Global Software-Defined Security Market can be segmented as follows:

Segmentation by Deployment:

- Cloud
- on-premise

Segmentation by Solution:

- abstraction
- automation
- orchestration
- scaling
- APIs among others.

Segmentation by Application:

- Telecommunication
- cloud service provider
- government
- education
- healthcare among others

Taste the market data and market information presented through more than 30 market data tables and figures spread over 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on [“Software-Defined Security Market Research Report- Global Forecast to 2022”](#)

Objective Study of Software-Defined Security Market:

- To provide detailed analysis of the market structure along with forecast for the next five years of the various segments and sub-segments of the Global Software-Defined Security Market.
- To provide insights about factors affecting the market growth.
- To Analyze the Software-Defined Security Market based on various factors- porters five force analysis, mega trend analysis, macroeconomic indicators etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.
- To provide country level analysis of the market for segment by deployment, by solution, by application and sub-segments.

Commenting on the report, an analyst from [Market Research Future](#) (MRFR)'s team said: “Growing demand for increased server security by enterprises is the key trend for this market. With increasing investment of market players for deployment of secured and quick access cloud infrastructure , especially the American and APAC countries are taking many initiatives to implement the Software-Defined Security effectively in their region “

Key questions answered in this report

- What will the market size be in 2022 and what will the growth rate be?

- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
