PUNE, MAHARASHTRA, INDIA, November 25, 2016 /EINPresswire.com/ -- [E-Learning](#) Industry

Description

The Global E-Learning market is estimated to be \$ 165.36 billion in 2014 and is poised to grow at a CAGR of 5.08% to reach \$243.8 billion by 2022. The key factors that are favoring the market growth are flexibility in learning, low cost, easy accessibility, increased effectiveness by animated learning, escalation in number of internet users and growing access of broadband pooled with mobile phones with online capabilities. However, factors like change management, technology obsolescence and vendor- developer partnership are major restraints that are hindering the growth of this market. While the United States leads the sales, Asia is the second largest market in eLearning products.
