PUNE, MAHARASHTRA, INDIA, January 9, 2017 /EINPresswire.com/ -- [Specialty Water Treatment Chemicals](#) Industry

Description

According to Statistics MRC, the Global Specialty Water Treatment Chemicals Market is valued at \$27.82 billion in 2015 and is poised to reach \$42.3 billion by 2022 growing at a CAGR of 6.2% from 2015 to 2022. Infrastructural advancements and end-user applications in the market are currently trending, this had given rise to the need for water supplies. However, the factors such as increasing demand for water and stringent environmental safety regulations are creating the demand for the water treatment chemicals. Whereas, rising raw material costs is restraining the market growth.

Corrosion inhibitors segment is expected to be the fastest growing market owing to the technological advancements in water treatment industry, usage of equipment relating to treatments had increased, which in turn had given rise to the demand for the market. Asia Pacific contributes to the largest water treatment chemicals market owing to the rapid increase in population, in addition to the scarcity of the pure and clean drinking water.
