

IT Governance announces its training course schedule for 2017/18

ELY, CAMBRIDGESHIRE, UNITED KINGDOM, January 10, 2017 /EINPresswire.com/ -- IT Governance Ltd, the leading international cyber security provider of accredited training courses, has announced its [official schedule](#) of public training courses for 2017/18.

To meet the current demand for ISO 27001 and EU General Data Protection Regulation (GDPR) qualifications, IT Governance has significantly increased the number and locations of its training courses in the UK.

Alan Calder, founder and executive chairman of IT Governance, said: "The 3.1 billion records leaked in the past year has created an unprecedented demand for training from IT professionals who wish to meet the challenges posed by the increasing and persistent threats and risks associated with cyber crime.

Our 2017 training schedule significantly increases the availability, access and quality of all courses. Alongside our renowned ISO 27001 Foundation, Lead Implementer and Lead Auditor training courses, this year we offer a wide range of EU GDPR Foundation and Practitioner courses in London, Cambridge, Manchester, Birmingham, Edinburgh and Dublin.

The IT Governance training portfolio is structured in learning stages, with courses at Foundation and Practitioner levels in subject areas such as ISO 27001, the PCI DSS, the GDPR, ISO 22301, COBIT 5, ITIL and ISO 20000. IT Governance also provides professional certification training courses such as the CISM and CISSP ATP training courses, and exam preparation training for CISA, CISM, CRISC and CGEIT qualifications.

A new addition to IT Governance's training portfolio is the [Certified Ethical Hacker \(CEH\) training](#) course, which equips delegates to perform ethical hacking and achieve the industry-recognised CEH qualification in just one week. The course is delivered by an approved EC-Council trainer and experienced penetration tester.

IT Governance courses are delivered by expert practitioners of information security and data protection. They are available in classroom, Live Online and distance learning formats, and can be accessed by delegates from anywhere in the world to save time and reduce travel costs.

Each IT Governance training course has been developed to deliver defined learning objectives, and to provide the framework to support a progressive and integrated education programme.

The courses also support professional development. Upon passing a course exam, delegates are awarded industry-recognised certificates from international exam bodies such as IBITGQ, BCS,

APMG and EXIN.
