The analysts forecast the global microarray market to grow at a CAGR of 14.34% during the period 2016-2020.

A microarray is an advanced tool used in molecular biology. It allows end-users to conduct high-throughput and highly parallel analyses of more than thousand points of interest that include messenger ribonucleic acid (mRNA), genes, and proteins. Microarrays include a broad range of platforms in which high-density assays are conducted parallel on a solid support. The concept of the microarray is based on base-pairing hybridization principle (hybridization between nucleic acids).

Covered in this report

The report covers the present scenario and the growth prospects of the global microarray market for 2016-2020. To calculate the market size, the report considers the revenue generated from the sales of microarray solutions such as instruments and consumables.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Microarray Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Agilent Technologies
- Illumina
- Thermo Fisher Scientific
- Merck

Complete Report Details @ <https://www.wiseguyreports.com/reports/758336-global-microarray-market-2016-2020>

Other prominent vendors

- Applied Microarrays
- Arrayit
- AXO Science
- BioCat
- BioGenex
- Biometrix Technology
- Cepheid
- GE Healthcare
- InDevR
- LC Sciences
- Perkin Elmer
- Phalanx Biotech
- Qiagen
- Takara Bio
- US Biomax.

Market driver

- Increased prevalence of chronic diseases
- For a full, detailed list, view our report

Market challenge

- High cost of instruments
- For a full, detailed list, view our report

Market trend

- Rising focus on drug discovery and development
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?

Table of Contents

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Vendor analysis
- Top vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Market scenario
- Market size and forecast
- Five forces analysis

PART 05: Market landscape

- Market overview

PART 06: Geographical segmentation

- Market overview

PART 07: Market segmentation by application

- Market overview

PART 08: Market segmentation by product type

- Market overview
- Global microarray consumables market
- Global microarray instruments market

PART 09: Market segmentation by technology

- Segmentation by technology

PART 10: Market drivers

PART 11: Impact of drivers

PART 12: Market challenges

PART 13: Impact of drivers and challenges

PART 14: Market trends
