

InstaSafe wins CIO Choice "Best Cloud Security Vendor" award, third year in a row.

CIOs recognize Instasafe as the Best Cloud Security Vendor at the CIO Choice Awards, third year in a row.

BANGALORE, KARNATAKA, INDIA, January 9, 2017 /EINPresswire.com/ -- [InstaSafe](#), a leader in providing cloud-based security solutions, has been recognized with the CIO CHOICE 2017 Honor in the 'Best Cloud Security Vendor' category for the SME segment. This is the third time in a row, having won the award in 2015 & 2016, that CIOs across the board have given their seal of confidence to Instasafe in the Cloud Security segment.

The 5th Annual CIO Choice Awards 2017, held in a glittering ceremony in Mumbai on 6th January 2017, was by far the most competitive in its 5-year history. With multiple entries in each category, winners were determined by an independent CIO voting process with knowledge partner KPMG. The awards are highly coveted and recognized in the industry as they are "By the CIOs".

Speaking after receiving the award Sandip Kumar Panda, Co-founder & CEO, Instasafe said, "Winning the CIO Choice award third year in a row is an honour and a great feeling. It validates the fact that CIOs believe in Instasafe's solutions and technology as being the right fit for their infrastructure. Our simple and flexible security solution harnessing the power of the cloud has helped many organisations seamlessly transform their secure access and web security spending from a Capex to an Opex mode and free them from dependence on hardware devices. Winning the award, the first time in 2015 was a pleasant surprise, winning it the second time in 2016 was a welcome validation but this hat-trick in 2017 gives us the confidence that we have the right product and technology backed by CIOs choice."

"I heartily congratulate Instasafe Technologies for this wonderful hat-trick of winning the 'Best Cloud Security Vendor' CIO Choice award" said Anoop Mathur, President at Centre Of Recognition & Excellence. "CIO Choice trust seal is a Gold Standard and validation from the CIO community in the recognized brand as a Trusted Partner. Being selected by CIOs as a best vendor for three years in a row is no mean feat and it proves that Instasafe is here to stay and change the security landscape. I wish them the very best in their future"

Instasafe Technologies is a leading Cloud based Security-as-a-Service solution provider delivering comprehensive and uncompromising protection to mobile and remote workers enabling them to safely

Instasafe co-founders Sandip Panda & Prashanth Guruswamy receive the CIO Choice Award 2017.

and securely access enterprise apps, email and web from anywhere on any network.

The 5th edition of the Annual CIO CHOICE Recognition, focusing on companies based or operating in India, was the by far the most competitive in its history, with the highest number of nominations and entry submissions to date with a distinguished CIO Advisory. Winners of CIO CHOICE 2017 were determined by an independent CIO voting survey from across the country on product performance, customer satisfaction and continued customer service. KPMG was the knowledge partner for CIO CHOICE 2017.
