The analysts forecast the global [movie theater](#) market to grow at a CAGR of 6.85% during the period 2017-2021.

Movie theaters use digital technology to distribute or project motion pictures. They use digital projectors instead of conventional film projectors to project digital movies. Movie theaters are also being used for cinema advertising and promotional activities. The growth of the global movie theater market is mainly driven by the rising demand for high-quality movies.

Covered in this report

The report covers the present scenario and the growth prospects of the global movie theater market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of movie tickets and the number of screens globally.
