DALLAS, TX, UNITED STATES, February 13, 2017 /EINPresswire.com/ -- Sourcing is the process of locating sources of goods and services of a company. It is a component of the procurement process. In procurement, major focus will be on the logistics of acquiring materials, whereas in sourcing the focus is to find the best and cost-effective suppliers for the resources. Since the profit of a business can rely heavily on finding the best possible sources, sourcing plays a vital role in the procurement process and in the overall supply chain management process.
