

MEMS Microphone 2017 Global Market Expected To Grow At CAGR Of 8.21% And Forecast To 2021

Wiseguyreports.Com Publish New Market Research Report On-"MEMS Microphone 2017 Global Market Expected To Grow At CAGR Of 8.21% And Forecast To 2021".

PUNE, INDIA, February 17, 2017
/EINPresswire.com/ --

[MEMS Microphone Market](#) 2017

The analysts forecast the global MEMS microphone market to grow at a CAGR of 8.21% during the period 2017-2021.

A microphone converts sound into an electrical signal. Microphones have wide applications in hearing aids, automotive, telephones, concert halls, public events, radio, and television broadcasting. Different microphones such as dynamic microphones, condenser microphones, and piezoelectric microphones are currently in use. MEMS microphones are also called silicon microphones. MEMS microphones can sense audio signals in a way similar to electret condenser microphones.

Covered in this report

The report covers the present scenario and the growth prospects of the global MEMS microphone market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of MEMS microphones.

The market is divided into the following segments based on geography:

- Americas
- APAC
- Europe
- ROW

The report, Global MEMS Microphone Market 2017-2021, has been prepared based on an in-depth

market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Knowles Corporation
- Goertek
- AAC Technologies
- InvenSense
- STMicroelectronics

Other prominent vendors

- Bosch Sensortec
- Cirrus Logic
- Hosiden
- Infineon Technologies
- MEMSensing
- NeoMEMS Technologies
- New Japan Radio
- OMRON

Market driver

- Increased penetration of MEMS technology in hearing aids
- For a full, detailed list, view our report

Market challenge

- Declining average selling price of MEMS microphone
- For a full, detailed list, view our report

Market trend

- Increased adoption of MEMS microphone with greater SNR
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Complete Report Details @ <https://www.wiseguyreports.com/reports/932031-global-mems-microphone-market-2017-2021>

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

- Market overview
- Definitions

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Global MEMS microphone market by application
- Global MEMS microphone in consumer electronics
- Global MEMS microphone in healthcare industry
- Global MEMS microphone market in automotive industry
- Global MEMS microphone market in others

PART 07: Market segmentation by type

- Global MEMS microphone market by type

PART 08: Geographical segmentation

- Global MEMS microphone market by geography
- MEMS microphone market in APAC
- MEMS microphone market in Americas
- MEMS microphone market in Europe
- MEMS microphone market in ROW

PART 09: Key leading countries

PART 10: Market drivers

- Increased penetration of MEMS technology in hearing aids
- Increased number of MEMS microphones per device in smartphones
- Increased demand for enhanced audio experience in devices
- Growth in shipments of smartphones, laptops, and wearables

PART 11: Impact of drivers

PART 12: Market challenges

- Declining tablet market
- Declining average selling price (ASP)
- Difficulty in obtaining patent and other intellectual property rights

PART 13: Impact of drivers and challenges

PART 14: Market trends

- Increased adoption of MEMS microphone with greater SNR
- Growing demand for digital assistance in automobiles

- Growing earphones and headphones market
 - Emergence of miniaturization
-Continued
