

Otitis Media Therapeutic and Drug Pipeline Review H2

Otitis Media - Pipeline Review, H1 2017

PUNE, INDIA, March 17, 2017
/EINPresswire.com/ -- [Otitis Media](#) -
Pipeline Review, H1 2017

Summary

Otitis media (OM) is any inflammation of the middle ear, the air-filled space behind the eardrum that contains the tiny vibrating bones of the ear. Symptoms include ear pain, difficulty sleeping, loss of balance, fever, headache and loss of appetite. Risk factors include age, seasonal factors and exposure to tobacco smoke or high levels of air pollution. Treatment includes antibiotics and antipyrine.

Report Highlights

This report provides comprehensive information on the therapeutics under development for Otitis Media (Ear Nose Throat Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Otitis Media (Ear Nose Throat Disorders) pipeline guide also reviews of key players involved in therapeutic development for Otitis Media and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 2, 3, 2, 4 and 4 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 1 molecules, respectively.

Otitis Media (Ear Nose Throat Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Otitis Media (Ear Nose Throat Disorders).
- The pipeline guide reviews pipeline therapeutics for Otitis Media (Ear Nose Throat Disorders) by

companies and universities/research institutes based on information derived from company and industry-specific sources.

- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Otitis Media (Ear Nose Throat Disorders) therapeutics and enlists all their major and minor projects.
- The pipeline guide evaluates Otitis Media (Ear Nose Throat Disorders) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Otitis Media (Ear Nose Throat Disorders)

Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Otitis Media (Ear Nose Throat Disorders).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Otitis Media (Ear Nose Throat Disorders) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.
