

Global Wearable Technology Market is Growing at CAGR of 16% and Expected to Reach USD 50 Billion by 2022

Wearable Technology Market Analysis by Product (Wearable Cameras), Technology (Computing), Components (Control) and Application (Healthcare) – Forecast to 2022

PUNE, MAHARASHTRA, INDIA, March 20, 2017 /EINPresswire.com/ -- Market Highlights

In this rapidly changing environment, technology needs are ever increasing. The market trend towards the higher requirement of smart gadgets, higher accuracy is driving the [wearable technology market](#). Innovation is a key driver of Wearable Technology Market. The market trend indicates that wearable technology has become a fashion statement.

The study indicates that many organizations are largely investing in Wearable Technologies.

“

Major Key Players are-
Jawbone (U.S.), Samsung Electronics Co., Ltd. (South Korea), Sony Corporation (Japan), Qualcomm Technologies, Inc. (U.S.), Nike, Inc. (U.S.), Lifesense Group (The Netherlands)”
Market Research Future

Observing the current trend and sales the study indicates a sudden hike in wearable technology market. Wearable Technology has many benefits as ability to retrieve different physiological parameters, simplify daily functions, and others which boosts the market. Whereas the higher costs of the wearable technology devices are restraining the Wearable Technology Market. The battery life and usability issue are few restraining factors for the wearable technology market.

Competitive Analysis-

Major Key Players in Wearable Technology Market are:

- Adidas AG (Germany),
- Xiaomi Inc. (China),
- Apple Inc. (U.S.),
- Google Inc. (U.S.),
- Garmin Ltd. (U.S.),
- Fitbit (U.S.),

- Jawbone (U.S.),
- Samsung Electronics Co., Ltd. (South Korea),
- Sony Corporation (Japan),
- Qualcomm Technologies, Inc. (U.S.),
- Nike, Inc. (U.S.),
- Lifesense Group (The Netherlands),
- Misfit, Inc. (U.S.)

Wearable technology Market Segmentation

Wearable Technology Market has been segmented on the basis of product, technology, components and application. Looking through the product segment it's been observed that wristwear products are dominating the wearable technology market where as the smart clothing's products are expected to show a substantial increase in Wearable technology market. The wearable technology market is dominated by consumer electronics sector. However the fitness and wellness sector and the healthcare sector are showing a positive growth towards wearable technology.

Recently, it has been observed that many companies are developing new wearable technologies for the smart clothing segment. Google Inc. is going to launch a new wearable technology named Jacquard, it a smart- jacket. Many other companies like Nike, Adidas have their wearable products like smart t-shirts, smart shoes and others.

Access the market data and market information presented through more than 25 market data tables and 25 figures spread over 100 numbers of pages of the project report "[Wearable Technology Market - Forecast 2022](#)"

Market Research Analysis:

Regional analysis for Wearable technology market is studied in different geographic regions as Americas, Europe, Asia-Pacific and Rest of world. It has been observed that North America region would account for larger share in wearable technology market followed by Europe. It has been observed that North America region has Technological Developments and IT modernization which has resulted in the growth of Wearable Technology Market.

The study reveals that Asia-Pacific region is expected to have a significant growth in Wearable Technology Market by the forecast period. Asia-Pacific countries like China, India and Korea have maximum smartphone penetration which is the primary growth driver for the Asia-Pacific region.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
