

New Nicotine Free Way to Quit Smoking and Nicotine Addictions

The Relief Products, Smoker's Nicotine Relief

RENO, NEVADA, UNITED STATES, March 20, 2017 /EINPresswire.com/ -- Quitting an addiction is hard. One of the toughest things to do in life is to quit an addiction, especially an addiction to cigarettes and nicotine. Nicotine withdrawal is very real, and very difficult, and can have a myriad of symptoms, including headache, nausea, constipation or diarrhea, fatigue or drowsiness, sleeplessness, irritability, difficulty concentrating, anxiousness, and more. These symptoms increase the desire for more nicotine, which, if acted upon, can spark a relapse. Smoker's Nicotine Relief™ offers an exciting new, natural way to help you quit.

From the trusted makers of [Ring Relief](#), America's #1 Selling Tinnitus Ear Drop, and PinkEye Relief, Smoker's Nicotine Relief provides temporary relief from the symptoms of quitting smoking and nicotine. Smoker's Nicotine Relief is safe and gentle to use, with no known side effects, interactions with other medications, or contraindications.

"This product really works! This was my third and final attempt at quitting. I have tried the nicotine gum, patches, and everything else. I feel 100% better than I did before I started with the program, both physically and mentally. It really worked for me! Give it a try!"

Quinton R. (Testimonial)
