

# GreenLeaf Industries Launches Plastic Injection Molding Re-Shoring Calculator

LENOIR CITY, TENNESSEE, UNITED STATES, March 20, 2017

/EINPresswire.com/ -- GreenLeaf Industries, a Lenoir City, TN plastic injection molding company has been active in supporting the return of manufacturing jobs (re-shoring) that have previously exited the states based on previous trends of off-shoring.

To help bring awareness of the Total Cost of Ownership (TCO) related to off-shoring Plastic Injection Molding part production, Greenleaf Industries has built a Re-Shoring Calculator for prospects wishing to compare the full, and often overlooked, expenses associated with sending injection molding part production to Asia or Mexico.

This new Re-Shoring Calculator will allow business owners to quickly and accurately make an informed decision whether to off-shore or re-shore.

With the election of Donald Trump re-shoring has been a popular topic of discussion and caused many companies to become interested in the idea, which stimulates our own economy and provides more job opportunity to Americans.

The Re-Shoring Calculator can be found at: <http://greenleaf.biz/re-shoring-calculator/>

It provides an estimate based on quantity, unit price, anticipated scrap rate, up front supplier visits, future tariffs (optional), true/total cost of ownership, and premium over quoted price.

The Re-Shoring Calculator webpage also offers information on what makes an injection molded part or specific customer a good candidate for re-shoring.

Please visit the [GreenLeaf Industries website](#) for more information on re-shoring, including an original article [Why Re-Shore Injection Molding and Other Manufacturing?](#)

## About GreenLeaf:

GreenLeaf Industries is an ISO 9001 registered manufacturer that consistently adheres to all its standards to provide our clients with consistent, reliable, quality automotive and industrial plastic parts. We are an American injection molding company, unafraid to compete in the world market and determined to succeed. Established in 1999, we take pride in our high-quality craftsmanship and superior customer service.

Contact us to discuss whether your injection molding project may be a candidate for re-shoring.
