

Construction Chemical Market is Predicted to Grow at Approximately 7% Annually from 2016 to 2022

Construction Chemical Market by Type (Concrete Admixtures, Sealants & Adhesives), Application (Residential, Infrastructure) and by Region - Forecast To 2022

PUNE, MAHARASHTRA, INDIA, April 20, 2017 /EINPresswire.com/ -- Market Forecast:

“We enable our customers to unravel the complexity.”

Market Research Future

Market research future published a half cooked research report on [Global Construction Chemical Market](#). The Construction chemical market is expected to grow over the CAGR of around 7% during the period 2016 to 2022.

Key Players in market are BASF SE (Germany), Arkema SA (France), Ashland Inc. (U.S.), Fosroc International Limited (U.K.), Mapie S.p.A (Italy), Pidilite Industries Limited (India)”

Market Research Future

Market Highlights

Construction Chemicals are regarded as chemicals which are used specially while constructing any structures to increase their life and protect them from environmental hazards. The use of construction chemical is useful in minimizing the quantity of cement and water required during the construction process. The increase in urban population coupled with the increase in demand for public, commercial and residential building is driving the global construction chemical market.

Demands of buildings, roads, bridges and dams for the betterment of the infrastructure facility of the nation's worldwide is further driving the market.

Key Players

The key players of Construction chemical market are BASF SE (Germany), Arkema SA (France), Ashland Inc. (U.S.), Fosroc International Limited (U.K.), Mapie S.p.A (Italy), Pidilite Industries Limited (India), RPM International Inc. (U.S.), Sika AG (Switzerland), The Dow Chemical Co.(U.S.), W.R. Grace & Company (U.S.) and others.

Market Research Analysis

The market is highly application driven. Residential sector is dominating the construction chemical

market because of increase in demand for constructions. With the rapid urbanization, there is a rapid increase in the number of residential projects which majorly use construction chemicals. This increase of construction projects has led to the growth of the global construction chemical market. Asia-Pacific region is expected to dominate the construction chemical market with highest CAGR. The developing nations such as India and China are contributing majorly in the development of the region, owing to the increase in domestic demand for residential and commercial buildings in the region. Many multi-national companies have started to invest in the construction sector in Asia-Pacific region, which contributes to the growth of this sector.

Scope of the Report

This study provides an overview of the global construction chemical market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global construction chemical market by its type, application and region.

By Type

- Concrete admixtures
- Sealants & adhesives
- Protective Coatings
- Others

By Application

- Residential
- Infrastructure
- Industrial
- Others

By Region

- North America
- Asia Pacific
- Europe
- Rest of the World

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important

questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
