"We didnt expect to release the Global Radio Mixes. It became necessary when we got unexpected support from commercial radio around the world. It slowly built up and is continuing now. This release is a more commercial version of the Lift Off EP which was more DJ friendly." Says Marco DiCristo,

President of Love Vibration Nation Music and Publishing LLC. "The support and reception on The CoCreators across all continents is humbling. This is what Love Vibration Nation is all about, Spreading Love with great House Music. We got massive support from great DJs Like Coqui Selection, DJ Pierre, Late Night Dancer, Trax FM, Joy Radio, Platinum Radio, MindTheGapKC, numerous others and that snowballed into BillBoard DJs and Pop format stations starting to give us great momentum. We believe this will continue all the way up to their second EP release. All you have to do is hear their music and it makes you feel good inside. Its contagious."

“

We want to thank everyone for being receptive to our music. It's meant to unite us all, to remember we are all brothers and sisters on this planet. All is possible. Love Is The Answer!"

The CoCreators

To support the Global Radio Mixes Love Vibration Nation is producing 3 different videos, one for each song that appears in the release. They will be Sci Fi space travel themed journeys that all focus on

the theme that Love Is The Answer and music can change the world. Several huge names in House Music will be making cameo appearances in each of the videos. Press releases are forthcoming.

"We want to thank everyone for being receptive to our music. It's meant to unite us all, to remember we are all brothers and sisters on this planet. Nothing should separate us. All is possible when you realize Love Is The Answer. House Music conquers all challenges in language, opinion, and pre conditioned thinking. Once the music starts playing, the oneness begins. It's been happening like that since Frankie Knuckles, Larry Levan, Todd Terry and other innovators like DJ Pierre started doing their thing. We are happy it's still going strong and look forward to showing a lot of that love in our upcoming videos and forthcoming EP." -The CoCreators

Love Vibration Nation also announced the launching of its new solely owned and operated Sub Label R3UK which will be focused strictly on underground music. The new imprint will be released through the parent labels distribution matrix of Sony family of companies and other distributors world wide, covering 300 store fronts and streaming services. Publishing rights and copyrights will remain with the parent label which has been a member of ASCAP since 2016. Major press forthcoming on this announcement.
