Increasing construction activities in the Middle East and Africa region is expected to boost the demand in the Air Handling Unit market. Stringent air quality regulations and growing GDP of European nations like Germany, U.K are expected to have a profound impact on the Air Handling Unit Market in that region. Asia-Pacific is another region showing great potential mainly due to the major infrastructural activities being undertaken in the region.

Some of the major players in the Air Handling Units market are:

- Systemair (Sweden)
- Trane. TROX (U.S.)
- GEA Air Treatment (Germany)
- Carrier (U.S.)

- Daikin (Japan)
- Johnson Controls (U.S.)
- Lennox International (U.S.)
- Flakt Woods (U.K.)
- Sabiana (U.K.)
- Hitachi Ventus (Japan)

The report on Air Handling Units of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, Furthermore technological advancement, and macro-economic factors in the market have also been discussed in detail in the report. The report provides detailed information and strategies of the key players in the industry. The report also provides a broad study of the different market segments and regions.
