

Global Well Intervention Market is to grow at a CAGR of 3.5% by Forecast to 2023

Global Well intervention Market Information Report by service (Logging & bottom hole survey, Stimulation, Artificial Lift)-Forecast to 2023

PUNE, MAHARASHTRA, INDIA, May 15, 2017 /EINPresswire.com/ -- Market Highlights:

The major factors that are expected to drive the Well Intervention Market are the rapid increase in demand for energy, increase in production of oil & gas and the regeneration of aging wells.

However, the growth of the market is expected to be restrained by the increasing awareness about the use of renewable energy and the imposing of strict rules and regulations by the government.

The Well Intervention Market is expected to grow over the CAGR of around 3.5 % during the period 2017 to 2023.

GE Oil & Gas (U.K.),
Halliburton Company (U.S.),
Schlumberger Limited (U.S.),
TechnipFMC plc. (U.K.)”

Market Research Analysis:

The factors responsible for the growth of the global well intervention market include the use of well intervention services in shale as well as oil wells. The North America region is the largest market for well intervention. The U.S. market for well intervention is expected to be driven by the ongoing shale gas revolution in the region.

The Africa market is experiencing continuous oil & gas field development, which is expected to boost the need for well intervention/work over services. Increasing production activities in the American offshore is expected to drive the well intervention market in the future. Asia-Pacific and Africa are the emerging regions in the well intervention market and are expected to demand well intervention services in the forecast period

Scope of the Report:

This study provides an overview of the global well intervention market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global Well intervention Market by its service, application and region.

Intended Audience

- Distributer & Supplier companies
- End Users
- consultants and Investment bankers
- Government as well as Independent Regulatory Authorities
