

Global Electric Steering Market is expected to grow at a CAGR of 15% by Forecast to 2022

Global Electric steering Market Information by Type (Column Assist Electric Power Steering (C-EPS)) by Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, May 19, 2017 /EINPresswire.com/ -- Market Highlights:

Electric steering is increasing replacing hydraulic steering's in the automotive industry. Usage of electric steering will improve the fuel economy because electric steering uses around 8-10 horsepower under load. Electric powered steering uses electric motor instead and provides increased steering capabilities with less effort, as it removes hose, fluid, drive belt, pulley, and pump.

Growth in the improved steering & reliability, and high fuel efficiency of electric steering over hydraulic steering systems is expected to drive the market of electric steering.

JTEKT Corporation, Robert Bosch Automotive Steering GmbH, ZF TRW Automotive Holdings Corp”
Market Research Future

The global [Electric Steering Market](#) is expected to show a growth at CAGR of about 15% from 2016 to 2021.

Major Key Players:

- JTEKT Corporation
- Robert Bosch Automotive Steering GmbH
- ZF TRW Automotive Holdings Corp.
- NSK Ltd.

- Nexteer Automotive Group Limited
- Mando Corporation
- ThyssenKrupp Ag
- Hyundai Mobis Co., Ltd.
- Showa Corporation
- China Automotive Systems Inc

Study Objectives of Global Electric steering Market

- To provide detailed analysis of the market structure along with forecast for the next five years of various segments and sub-segments of the global Electric steering market
- To provide insights about factors affecting the market growth

- To analyze the global Electric steering market based on various factors such as supply chain analysis, and Porter's five forces analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries - North America, Europe, Asia-Pacific, and ROW.
- To provide country level analysis of the market with respect to the current market size and future prospective

Regional Analysis:

Asia-Pacific has emerged to be fastest growing market for electric steering market. This region has largest vehicle production due to increasing population and increasing disposable income. Increasing population, improving per capita income, and improving living standards are driving the market for automotive industries and hence expected to drive the market for electric steering

Target Audience:

- Electric steering system manufacturers
- Automotive manufacturers.
- Government and research organization
- Investment bankers and M&A Consultants

Geographic Analysis:

- Geographical analysis across 17 countries

Company Information:

- Profiling of 10 key market players
- SWOT analysis, and strategy information of top five players in the market
- Competitive landscape including emerging trends adopted by major companies

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by Solutions, Application, Logistics and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
