

Green Cement Market is Predicted to Grow at a CAGR of 15% from 2017 to 2023

Global Green Cement Market by Application (Residential, Non-Residential, Industrial), Product Type (Fly Ash based, Slag based) and By Region - Forecast to 2023

PUNE, MAHARASHTRA, INDIA, May 19, 2017 /EINPresswire.com/ -- Market Highlights

“ We enable our customers to unravel the complexity.”

Market Research Future

Green cement market is majorly driven by the increase in use by the residential as well as non-residential end users. Green cement offers resistance to moisture, is a very good insulator and offers protection against corrosion, which are expected to drive the market for green cement. The rise in the construction activities due to the increasing population and urbanization, is expected to drive the growth of the green cement market. The growth of the market can also be attributed to factors such as the rising stringent regulations on carbon emission and emphasis on creating zero waste regions.

Key Players in market are HeidelbergCement AG (Germany), LafargeHolcim Ltd. (Switzerland), Taiheiyo Cement Corporation (Japan), Taiwan Cement Corporation (Taiwan), Ecocem Ireland Ltd. (Ireland)”

Market Research Future

The [Global Green Cement Market](#) is expected to grow over the CAGR of around 15 % during the period 2017 to 2023.

Market Research Analysis

Asia-Pacific is expected to grow rapidly in the green cement market due to the increasing industrialization. Also, the rapid urbanization in the developing economies such as India, is generating need for more constructions, thereby driving the growth for the green cement market. In North America, the increasing demand for entertainment, healthcare infrastructure and education, is driving the need for construction with green cement. In Africa, the rising demand for energy infrastructure is expected to drive the demand for green cement.

Scope of the Report

This study provides an overview of the global green cement Market, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global Green cement market by its application, end-use and region.

By Application

- Residential
- Non-residential
- Industrial

By Product Type

- Fly ash based
- Slag based
- Geopolymer
- Others

By Region

- North America
- Asia Pacific
- Europe
- Rest of the World

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
