

Global Dental Prosthetics Market is growing moderately and expected to reach US\$ 5.65 billion by 2023

Dental Prosthetics market information, by Type (Denture, Crown, Bridges, Veneer, Abutment, Inlays), By Type of Material, by End User - Forecast to 2023

PUNE, MAHARASHTRA, INDIA, May 19, 2017 /EINPresswire.com/ -- Market Highlights

The Global [Dental Prosthetics Market](#) has been evaluated as moderately growing market and it is expected that the market will continue to grow similarly in the near future. Dentistry is one of the oldest medical professions and it became more defined and professional after 1700s. Dental prosthetics is also known as prosthodontics. Dental prosthetics are used for replacement of missing or damaged teeth. This replacement either temporary or permanent according to need. Growing overall population and increasing demand for dental care

treatments are leading the growth for the dental prosthetics market. Rapidly increasing aging population is another important driver for the dental prosthetics market, because after certain age, elderly people may face some dental problems and it is necessary to take some dental treatments. Increasing consumer awareness is major driver for the growth of the market. Cosmetic dentistry is

one of the niche sub segment of dentistry and is growing rapidly. Consumers are becoming more conscious about oral health and appearance for which they are opting for cosmetic dentistry. Dental prosthetics manufacturers are spending huge money on R&D to develop new and innovative product for the market which is causing competition among the companies. Growing dental tourism is a key factor for the growth of the market.

“

Key Players: Henry Schein, Inc. (US), DENTSPLY Sirona (US), 3M (US), Institut Straumann AG (Switzerland), Zimmer Biomet (US), Nobel Biocare (Part of Danaher corporation) (US), ”

Increasing per capita income, increasing expenditure, and growing middle class population are driving

the growth for the dental prosthetics market. Hospitals are also providing advance facilities to the patients which are helping them to attract more number of patients. Dental Prosthetics Market was around US\$ 3882.4 million in 2016 and it is expected to reach US\$ 5659.4 million by 2023 at a CAGR of 5.5% during the forecast period.

However, there are some factors which are inhibiting the growth of the dental prosthetics market such as cost of dental prosthetics and treatment, lack of skilled dentist, lack of number of dentist, slow adoption of technology, grey market products etc.

Test the market data and market information presented through more than 135 market data tables and figures spread over 106 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Dental Prosthetics Market Research Report –Global Forecast to 2023.](#)"
