

Thermal Power in China Industry 2017 Production, Segmentation, Consumption and Forecast to 2022

*Thermal Power in China Industry
Production and Consumption to 2022*

PUNE, INDIA, May 19, 2017
/EINPresswire.com/ -- Summary
"[Thermal Power in China](#), Market
Outlook to 2030, Update 2017 - Capacity,
Generation, Levelized Cost of Energy
(LCOE), Investment Trends, Regulations
and Company Profiles" is the latest
report from the industry analysis
specialists that offer comprehensive
information and understanding of the
thermal power market.

GET SAMPLE REPORT @

<https://www.wiseguyreports.com/sample-request/1289968-thermal-power-in-china-market-outlook-to-2030-update-2017-capacity>

The report provides in depth analysis on global thermal power market with forecasts up to 2030. The report analyzes the power market scenario in China (includes thermal, nuclear, large hydro, pumped storage and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details thermal power market outlook in the country and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in China thermal power market. A detailed coverage of energy policy framework governing the market with specific policies pertaining to thermal is provided in the report. The research also provides details of active thermal power plants in the country, upcoming thermal installation details and company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

Scope

The report analyses global thermal power market, China power market and China thermal power market. The scope of the research includes -

- A brief introduction on global carbon emissions and global primary energy consumption.
- Historical period is during 2006-2016 (unless specified) and forecast period is for 2017-2030.
- Detailed overview on the global thermal power market with installed capacity and generation trends, market forces analysis (drivers, restraints and challenges), installed capacity by fuel type, installed capacity split by region, installed capacity split by major countries and cross country comparison among thermal sources such as coal, oil and gas.

- Power market scenario in China and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.
- Detailed overview of China thermal power market with installed capacity and generation trends, installed capacity by fuel type, net capacity addition by fuel type, owners share, market size of major equipments such as steam generator and turbine, and information on major active and upcoming projects.
- Key policies and regulatory framework supporting thermal power development.
- Company snapshots of some of the major market participants in the country.

Reasons to buy

The report will enhance your decision making capability in a more rapid and time sensitive manner. It will allow you to -

- Identify key growth and investment opportunities in China thermal power market.
- Facilitate decision-making based on strong historic and forecast data for thermal power market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.

Table of Content: Key Points

1	Table of Contents	2
1.1	List of Tables	5
1.2	List of Figures	7
2	Executive Summary	8
2.1	Fall in OECD Countries' Carbon Emission despite a Global Rise during 2010-2015	8
2.2	Global Thermal Power will continue to be the Major Source of Electricity, Despite Decreasing Growth Rate of Capacity	8
2.3	Thermal is the Dominant Source in the Power Mix	9
2.4	Growth Expected in Nuclear and Renewable Sectors	9
2.5	Coal to have Maximum Net Capacity Additions in China	10
3	Introduction	11
3.1	Carbon Emissions, Global, 2001-2016	11
3.2	Primary Energy Consumption, Global, 2001-2025	13
3.3	Report Guidance	16
4	Thermal Power Market, Global, 2006-2030	17
4.1	Thermal Power Market, Global, Overview	17
4.2	Thermal Power Market, Global, Installed Capacity, 2006-2030	18
4.2.1	Thermal Power Market, Global, Installed Capacity Share by Region, 2016 and 2030	20
4.2.2	Thermal Power Market, Global, Installed Capacity Share by Country, 2016 and 2030	22
4.2.3	Thermal Power Market, Global, Installed Capacity Share by Segment, 2016 and 2030	24
4.3	Thermal Power Market, Global, Power Generation, 2006-2030	26
4.3.1	Thermal Power Market, Global, Generation Share by Region, 2016 and 2030	28
4.3.2	Thermal Power Market, Global, Generation Share by Country, 2016 and 2030	30
4.3.3	Thermal Power Market, Global, Generation Share by Segment, 2016 and 2030	32
4.4	Thermal Market, Global, Investment Trends, 2016-2020	34
5	Coal Power Market, Global, 2006-2030	36
5.1	Coal Power Market, Global, Installed Capacity, 2006-2030	36
5.1.1	Coal Power Market, Global, Installed Capacity Share by Region, 2016 and 2030	38
	...Continued
