

Americans are ask Join in an Evolution in Spring of 2017.

Would you, the Owners and Managers of the United States, choose to fire Donald Trump or work with him?

FREEPORT, FLORIDA, UNITED STATES, May 20, 2017 /EINPresswire.com/ --

OwnerManager.org has launched an Indiegogo campaign to encourage Americans to claim their inheritance of ownership rights and management privileges as allowed by federal law.

The Founding Fathers established a federal inheritance of ownership powers and management privileges that American citizens can formally claim, and then lawfully use to direct their employee government.

Each citizen is a named Owner and Manager of the United States by this federal inheritance.

"If you did not know about this, then Congratulations are in order, Because, there are about 7.5 billion humans, but there are only about 308 million Americans. Americans are a minority on earth, but thanks to the Founding Fathers, each American citizen is part of the elite number of living Americans today." says OwnerManager spokesman Walter Spraggins.

According to the campaign, this inheritance is expressed by the American Social Contract, which contains four elements: The Declaration of Independence, The Public Land Survey System

(PLSS), The Constitution, and The Bill of Rights. Together, these four elements grant each citizen ownership of the United States and define that the government is their paid employee, which is theirs to manage. This empowers each American citizen individually, by making them an Owner and a

Manager of the United States. Under federal law each citizen holds popular sovereignty as defined by the Constitution, no other branch of your employee government hold this special power, just the citizen Owners.

"Fortunately, federal law requires citizens to formally claim their inheritance before they can lawfully use this power and authority," explains Spraggins. "Joining the Evolution, by becoming a member of the OwnerManager Community satisfies this legal requirement instantly, and then gives citizens access to the website. The website that, Spraggins, is asking Americans to help construct, for Americans to use, to improve their government's performance

“

Claim what is yours and master its good use; is a basic tenet of American Capitalism," reminds Spraggins."

Benjamin Franklin, Alexander Hamilton, George Washington, independence hall, with the Constitution in the background. We the People are the OwnerManagers, Join the American Evolution May 2017.

from the top down. "This is a Campaign that needs the Owner's support to become 'real'. "We build it together, as an exercise in unity. Unity as American Owners. This is a higher calling than democrat or republican" Spraggins notes. "It has been 240 years since the Founding Fathers established this inheritance for 'We the People', and it is about time 'We the People' take advantage of our current technology and use it to claim and enforce our rights and privileges in an evolutionary new way!" Spraggins points out.

This is important because you, the Owner Manager, are important to how and if America works well, or not.

"Discover, confirm, claim, and then enforce your inheritance, your rights and your privileges," encourages Spraggins. What is OwnerManager.org?

When the OwnerManager.org website is launched, members will be able to share their thoughts and connect with other OwnerManagers like themselves.

- They will have the ability to form consensus on any issue, direct their government employees, and hold them accountable.
- They will be able to implement and change public policy in their neighborhood, their city, their county, their state, and their nation.
- They will be able to form consensus and instruct Congress on the [terms of their Health Care, and their Tax Reform.](#)
- And much more.

"Active OwnerManagers could demand the appearance of their executive employee's tax returns, they could mandate his compliance with the Constitution, they could fire him, or they could help him do a better job. Either way, all of Washington DC needs to be shown who the Boss is, and the citizens are the Owners, if the citizens don't Manage their nation who will?" asks Spraggins. "Russia?"

"Consensus by voting is defined as an expression of popular sovereignty in the third element of your American Social Contract, the Constitution." cites Spraggins.

These are just some of the things a citizen could do as an active member of the OwnerManager Community. Individual leadership is important to the fulfillment of the American Potential. Because each citizen is the American with the potential to claim and then use their Inheritance. Each American citizen can choose to shine like the American Star that they are, thanks to the Founding Fathers.

This campaign is Evolutionary, and it will end on July the 4th, 2017 – the anniversary of the first element of the American Social Contract, the Declaration of Independence.

Spraggins asks, "Will you claim your Independence? Will you end grid lock? Will you take control of what is yours? Will you fulfill your role in the American Social Contract? Will you join the evolution and be an active OwnerManager of a United States of America?"

You are not just a Citizen you are the Owner Manager of the United States. Explore and Know More at OwnerManager.us

You should claim and take control of what is rightfully yours. That is what Americans do, "not because it is easy, but because it is hard." (JFK)

““We the People” is not just a phrase written in the Constitution, it is the central part of each citizens’ role, as defined in the American Social Contract. It has been 240 years since the Founding Fathers established this inheritance for “We the People”, and it is about time “We the People” take advantage of our current technology and use it to claim and enforce our ownership rights and privileges in an evolutionary new way!

“This is a game changer for each American, you can help end the current national [Constitutional crisis](#), you can alter and improve the operation of your government employees. Claim what is yours and master its good use; is a basic tenet of American Capitalism,” reminds Spraggins. American citizens could actually participate and alter the course of America’s present and future, in real time, like the Founding Fathers intended, for the first time in American history!
