About Live Music

Live music includes live concerts performed by artists in public places. Such concerts are organized by an event management team. The passion and love for music have led to the formation of numerous musical bands. This has also resulted in an increase in the number of concerts by various musical bands. During the forecast period, the global live music market is likely to experience growth because of the increased interest of the younger population in music. Concerts and live performances give individuals a chance to watch their favorite artists perform on stage. This creates high enthusiasm and interest among individuals to attend such events.

The analysts forecast the global live music market to grow at a CAGR of 7.98% during the period 2017-2021.
