

Retail Cloud Market Valued at 10 Billion USD in 2016 and will Reach 28 Billion USD by 2022

Retail Cloud Market, By Type (Solution, Service), By Service Model (Software as a Service, Platform as a Service, Infrastructure as a Service), By Deployment

PUNE, MAHARASHTRA, INDIA, July 13, 2017

/EINPresswire.com/ -- Market Highlight

In the growing digital technology market, consumers are doing shopping from online retail websites and via mobile apps. Retailers across the industry are investing in e-commerce and Omni-channel retailing in order to improve the customer experience as well as to become competitive in the market. Major retail chains such as Wal-Mart, Target, and Costco are deploying several strategies on this front and trying hard to integrate their vast store network with online channel and attracting buyers to do online shopping which thereby boosting the company sales. These growing shifts of consumers towards Omni channel is supporting retailers in preserving their brand value.

However, the presence of big e-commerce giants namely Amazon, and Flipkart are a big threat for [Retail Cloud Market](#) as they consist of large customer base globally. To subdue this threat, the retail industry is gradually shifting towards Omni channel retailing and trying to integrate the multiple online channels which thereby increasing tendency to spend more than the regular shopping.

Market Research Future

Global retail cloud market is estimated to reach USD 28 billion by 2022 from USD 10 billion in 2016 growing with 17% CAGR during forecast period 2016-2022. Geographically, North America is the leading region among Europe, Asia-Pacific and Middle East & Africa. Asia-Pacific is the fastest growing region which is estimated to show high growth during forecast period. Increasing technology adoption and growing movement of customers to online portals for shopping in the region is expected to drive the growth of retail cloud market in the region.

Retail Cloud Market Players:

- IBM Corporation
