

Laser Therapy Market is Expected to Grow at a CAGR of 12.2 % from 2016 to 2023

Laser therapy market information: by type (diode laser, solid state laser, gas lasers, others) by applications - Global Forecast to 2023

PUNE, MAHARASHTRA, INDIA, July 17, 2017 /EINPresswire.com/ -- Market Highlights

[Laser therapy market](#) poised to grow due to product development of high precision and advanced products, at a CAGR of 12.2 %.

The laser therapy market is chiefly driven by product development and the fall in prices of raw materials and components such as diodes. The diode lasers are dominating the market due to their versatility of use in a plethora of medical instruments. The solid-state laser segment is expected to witness the fastest CAGR due to its vast applications in dermatology and aesthetics treatments such as tattoo removal, skin treatment etc. The dermatology segment held the largest market share followed by the ophthalmology segment. Solid-state and diode lasers sales are being driven by hair and tattoo removal procedures while Excimer laser is witnessing growth due to laser-based vision correction procedures. Lumenis is one of the world's largest medical laser company, operating in the surgery, cosmetic and ophthalmic applications. It launched its new Moses Holmium technology Urological application in 2017. The system optimizes laser energy transmission to increase stone ablation volume and uses unique pulse modulation to reduce stone retropulsion and migration.

Major key Players include Angiodynamics, Inc., Syneron Candela, Biolase Inc., Photomedex, Inc., Lumenis Ltd., Bausch & Lomb Holdings, Inc., IRIDEX Corp., Spectranetics Corporation "

Market Research Future

Laser Therapy Market Research Report- Global Forecast till 2023

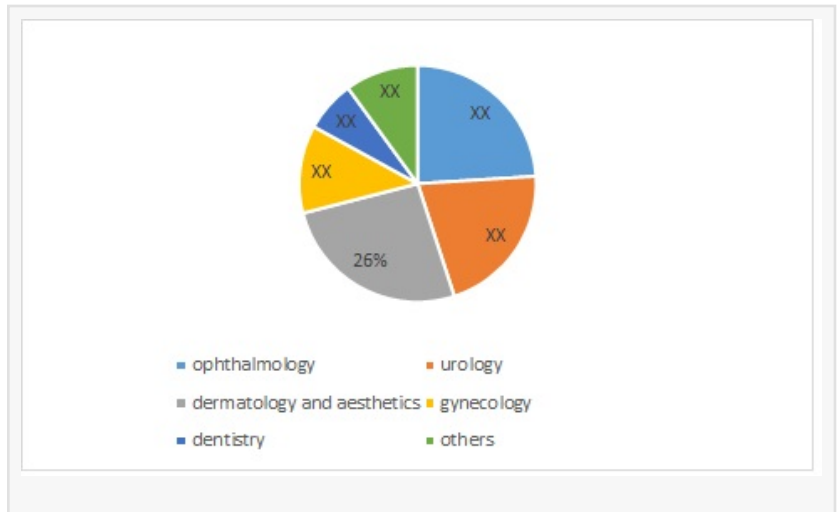

Another technology is multipoint laser direction systems for tissue ablation in diseases such as cancers. The system uses two or more lasers directed and converging at a single point to selectively destroy the underlying tissue. The AcuPulse DUOCO2 system has achieved an excellent cure rate compared with chemotherapy. LISALaser USA is another company to watch for as it collaborated with Intuitive Surgical to integrate its RevoliX 3000mw green laser system into the da Vinci surgical robotic surgery system.

to integrate its RevoliX 3000mw green laser system into the da Vinci surgical robotic surgery system.

Key players of Global Laser Therapy Market:

- Angiodynamics, Inc.,
- Syneron Candela,
- Biolase Inc.,
- Photomedex, Inc.,
- Lumenis Ltd.,
- Bausch & Lomb Holdings, Inc.,
- IRIDEX Corp.,
- Spectranetics Corporation,
- Cutera,
- Alma Lasers,
- Iridex Corp.
- others.

Segmentation:

The global laser therapy market is segmented on the basis of type and applications.

Segmentation Based on type, the market has been segmented as diode laser, solid state laser, gas lasers, dye lasers, and others.

Segmentation Based on applications, the market has been segmented as urology (kidney stones, tissue ablation), dermatology and aesthetics (skin resurfacing, pigment removal, hair removal), gynecology, dentistry, medical imaging, oncology and others.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
