

Global Women Health Therapeutics Market 2017 Share, Trend, Segmentation and Forecast to 2022

Women Health Therapeutics -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022

PUNE , MAHARASHTRA, INDIA, July 17, 2017 /EINPresswire.com/ -- [Women Health Therapeutics Industry](#)

Description

Wiseguyreports.Com Adds “Women Health Therapeutics -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022” To Its Research Database

Global women health therapeutics market is expected to witness a CAGR of around 4.4% during the forecasted period 2016-2022. In the healthcare industry, women health therapeutics market is a booming segment as every woman has to deal with some kind of gynecological disorder at some point of their lifetime. While most of the gynecological diseases can be cured with proper treatment but in certain cases they can prove fatal unless diagnosed at the right time. In present times, women health therapeutics market has notable pipeline of promising molecules at several stages of clinical development. Some of such molecules are AZD4901, romosozumab (AMG785), abaloparatide, elagolix, ASP1707, vaginorm and teriparatide. The global women health therapeutics market has witnessed phenomenal growth in the last decade owing to the rising awareness among women and physicians about the health issues related to the female gender. Along with it, large number of pharmaceutical companies entering the market has substantially supported the market. Rise in cases of infertility and increasing incidences of chronic disorders among women are seen as the key forces driving the growth of the global market. According to WHO, infertility in women is ranked as the 5th highest serious disability worldwide owing to which rise in need for infertility therapeutics can be seen in present times. Numerous facts and stats support the high infertility rate at global level. According to CDC, around 11.9% of women have ever received any kind of infertility services in their lifetime.

However, patent expiry of blockbuster drugs is expected to pose challenge in the growth of the global women health therapeutics market. Some of such blockbusters whose patent has expired or soon to be expired are the Premarin family, Mirena, Actonel, Forteo, Boniva, Gonal-F. While the launch of novel molecules such as Odanacatib and Elagolix in the late stage pipeline is expected to drive the market in the coming years. Furthermore, supportive government initiatives coupled with improving healthcare infrastructure in developing economies are projected to create significant growth opportunities for the global market.

Geographical Insights

Global women health therapeutics market can be bifurcated geographically into North America, Europe, Asia Pacific and Rest of the World. Amongst them, North America and Europe held the largest market share in the global market owing to the growing focus towards women health and increasing elderly population. High prevalence of chronic disorders such as breast cancer in the U.S. has further boosted the growth of the women health therapeutics market in North America. In 2017, approx. 40,610 women are expected to die owing to breast cancer in the U.S. Within the country, death rates due to breast cancer in women are higher in comparison to other cancer types besides lung cancer. The rapidly developing economies of Asia Pacific are projected to witness the highest growth rate during the forecasted period. The growth in the APAC market is backed by the growing awareness about the diversified treatment options for women health issues coupled with the rising prevalence of urological disorders within the regional countries. Along with it, efforts by government to increase the awareness about women's health and changing lifestyle has also played a vital role in the growth of the Asia Pacific women health therapeutics market.

The report includes detailed market overview, market determinants, company profiling, sector analysis, market segmentation, geographical analysis, patent analysis, strategic recommendations, key company analysis, gap analysis, key findings, market estimations, market insights, analyst insights and predictive analysis of the market.

Competitive Insights

The key players of Women Health Therapeutics market include Novartis International AG, Abbott Laboratories, Pfizer, Inc., Eli Lilly and Company, Bayer AG, Merck & Co., Inc., F. Hoffmann-La Roche Ltd. and Novo Nordisk A/S.
