

# Networking Support Services Market 2017 Global Trend, Segmentation and Opportunities Forecast To 2022

*This report covers market characteristics, size and growth, segmentation, regional breakdowns, competitive landscape, market shares, trends and strategies*

PUNE, INDIA, July 21, 2017 /EINPresswire.com/ -- The [networking support services](#) industry is undergoing a structural shift, with an increase in bundled services, from a single to a multiple contract service. Instead of delivering several single services in parallel to the same customer, integrated delivery of multiple services is being offered, thereby providing efficiencies. For instance, NTT Communications offers users a range of services such as network management, disaster recovery and solution services.

The Networking Support Services Global Market Report provides strategists, marketers and senior management with the critical information they need to assess the networking support services sector.
